

## STEP 1 OF 9 · TODAY (CURRENT APP)

### Remini today

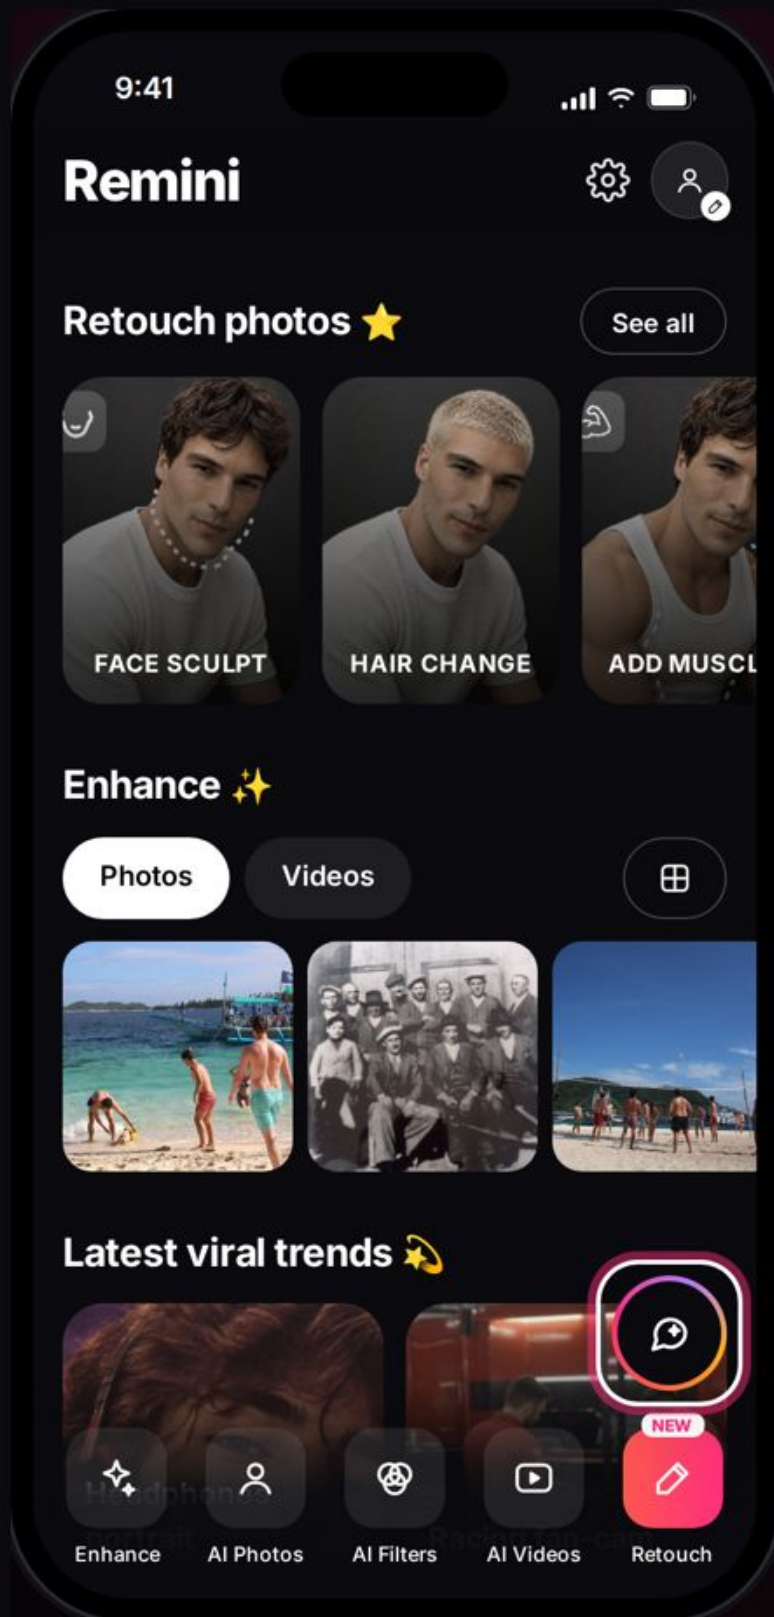

The app as it is: Retouch, Enhance and viral trends on the home; AI Photos, Filters and Videos in the bottom row; Remini Chat in the corner.

STEP 1 OF 9 · TODAY (CURRENT APP)

## A profile with 4 selfies

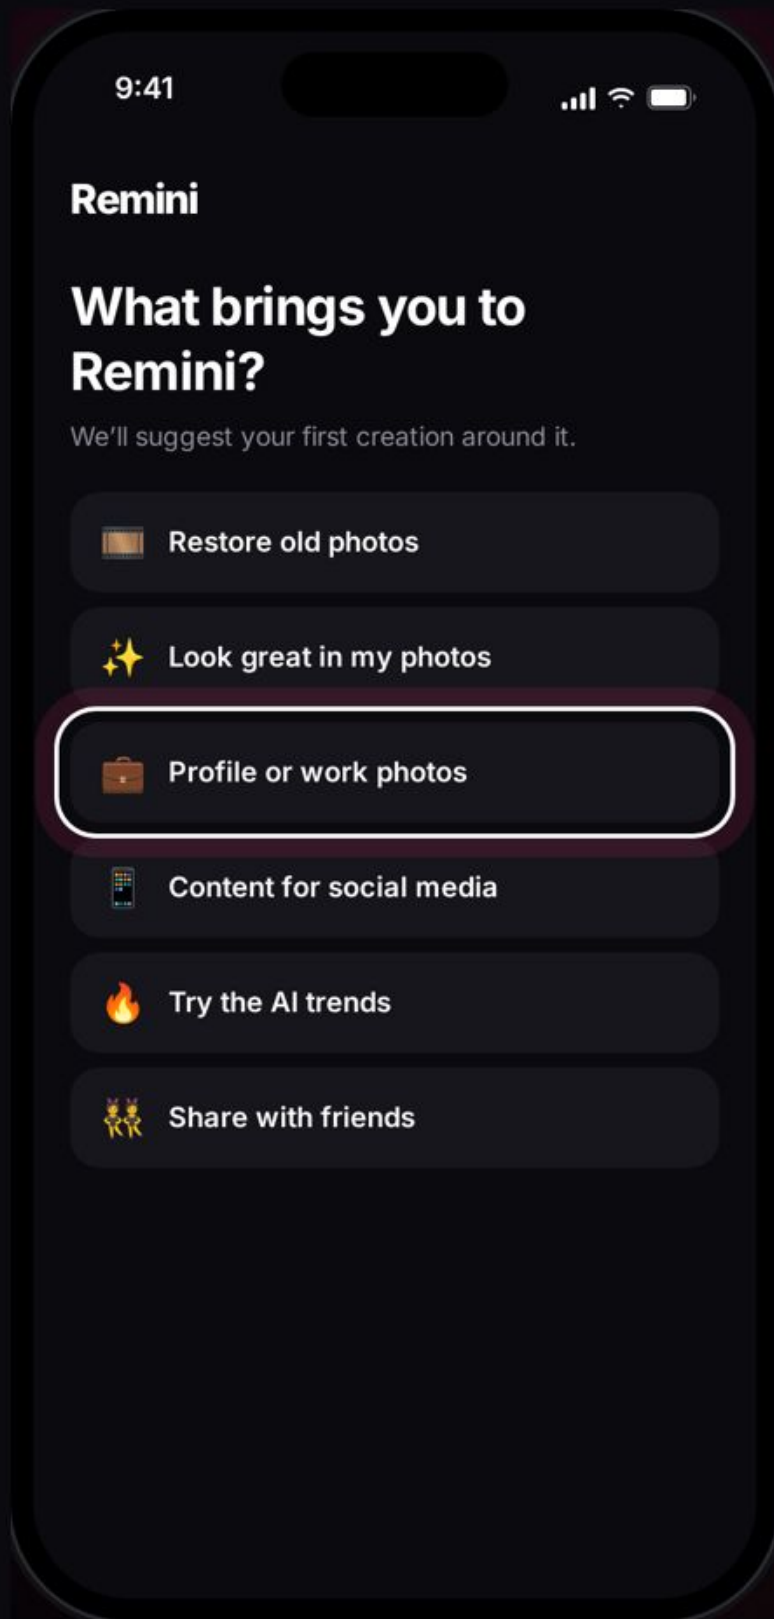

AI Photos already uses a profile made from 4 selfies.  
Results are listed by pack.

STEP 1 OF 9 · TODAY (CURRENT APP)

## Remini Chat

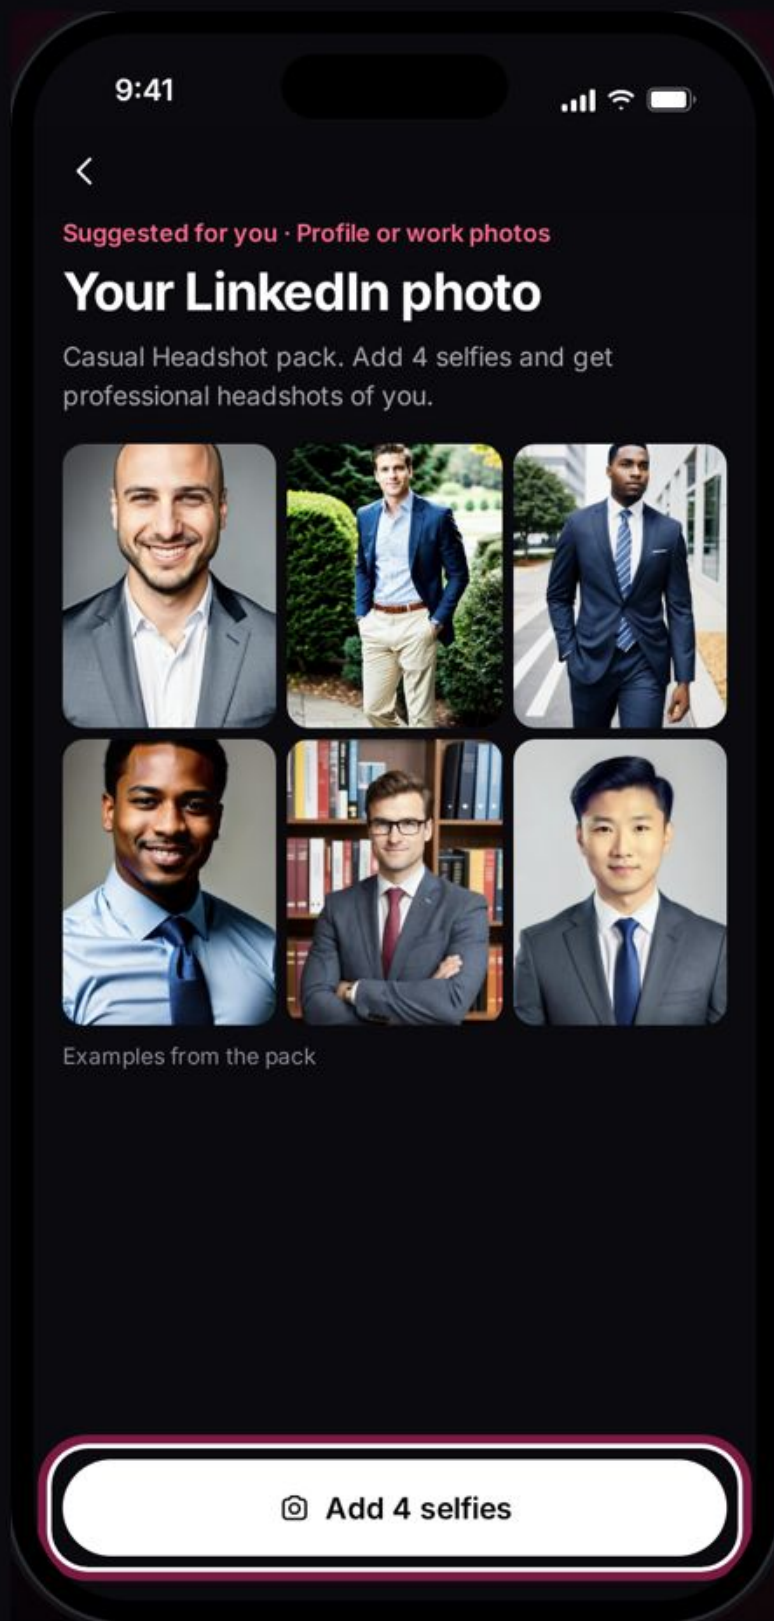

Upload a photo, write what you want, and Remini edits it.  
Now the same app, with Studio.

## STEP 2 OF 9 · FIRST CREATION

# Why are you here?

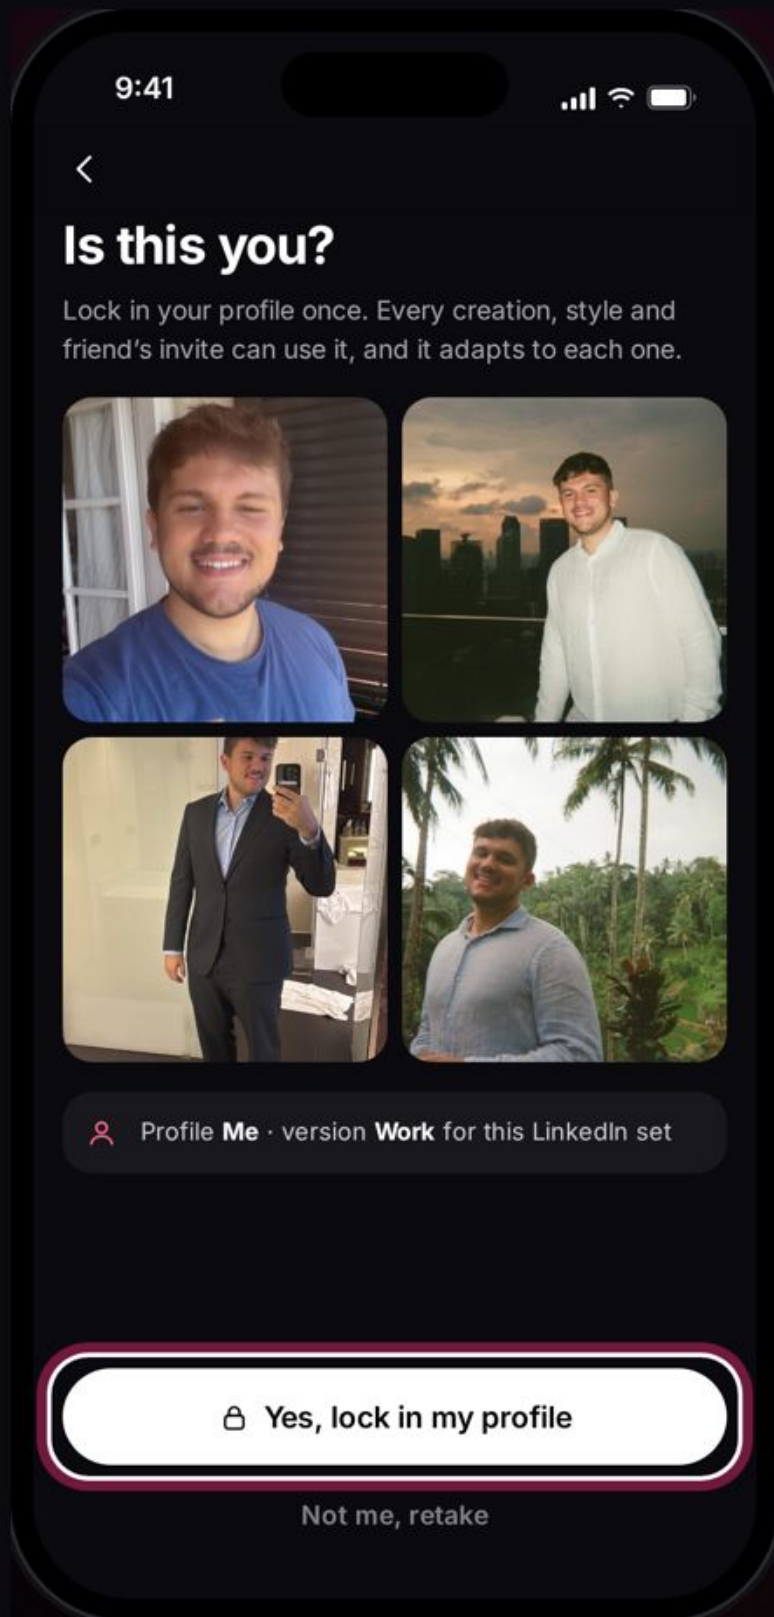

Same Remini, same question. The answer now picks your first creation: “Profile or work photos” here, or “Restore old photos”.

## STEP 2 OF 9 · FIRST CREATION

# Your first creation

A normal Remini generation, suggested for you: a LinkedIn photo from the Casual Headshot pack. So far, only Remini's own examples.

## STEP 2 OF 9 · FIRST CREATION

### “Is this you?”

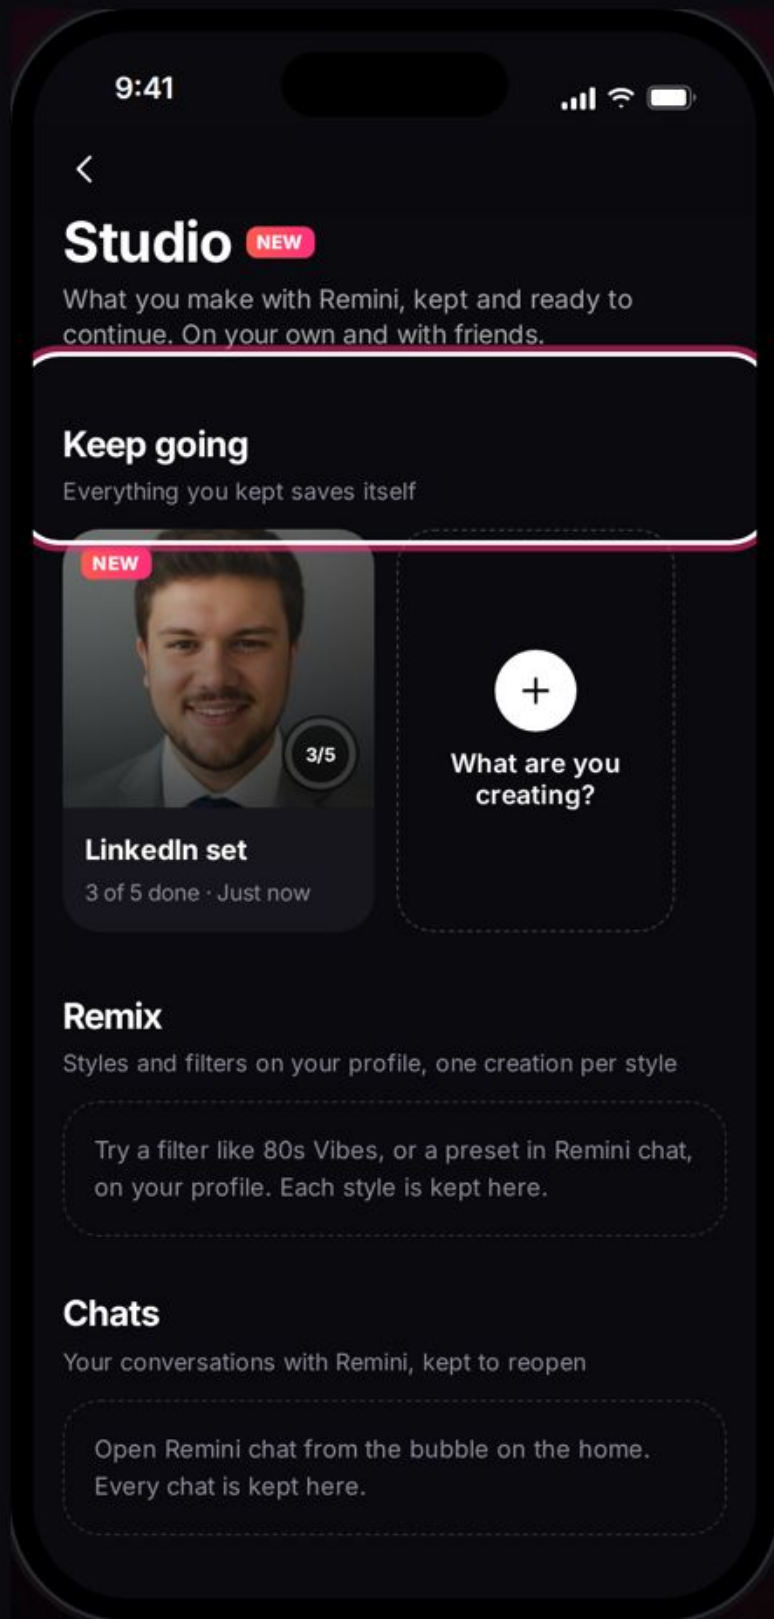

The profile Remini already has, made special: you confirm it once and lock it in. It starts with a Work version for this set.

## STEP 2 OF 9 · FIRST CREATION

# Save, share, or keep it

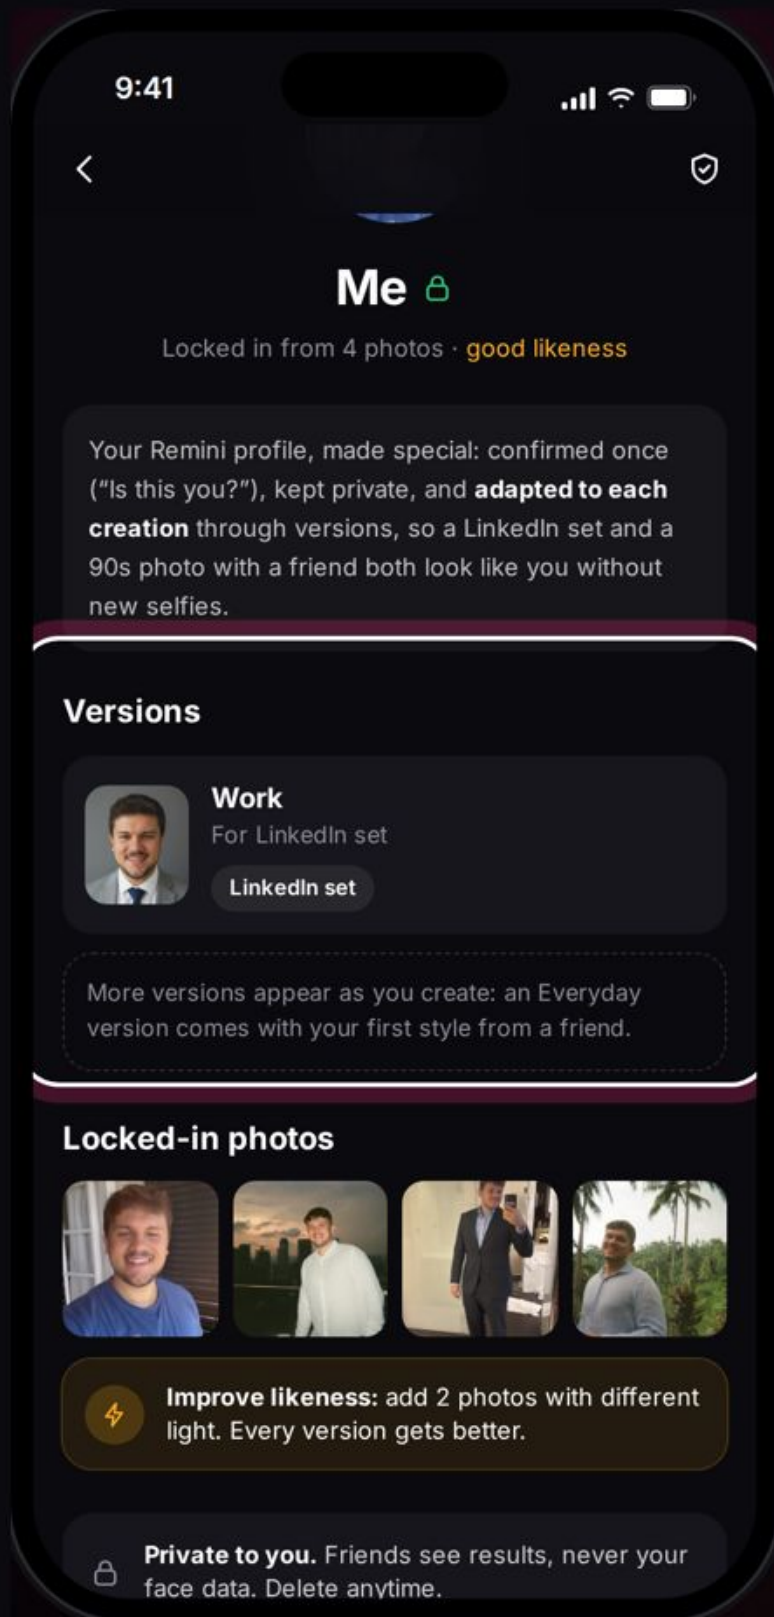

Your headshots. Save and Share work as always; “Keep this” is new and turns them into a LinkedIn set you can continue.

## STEP 3 OF 9 · KEPT IN STUDIO

# Kept in Studio

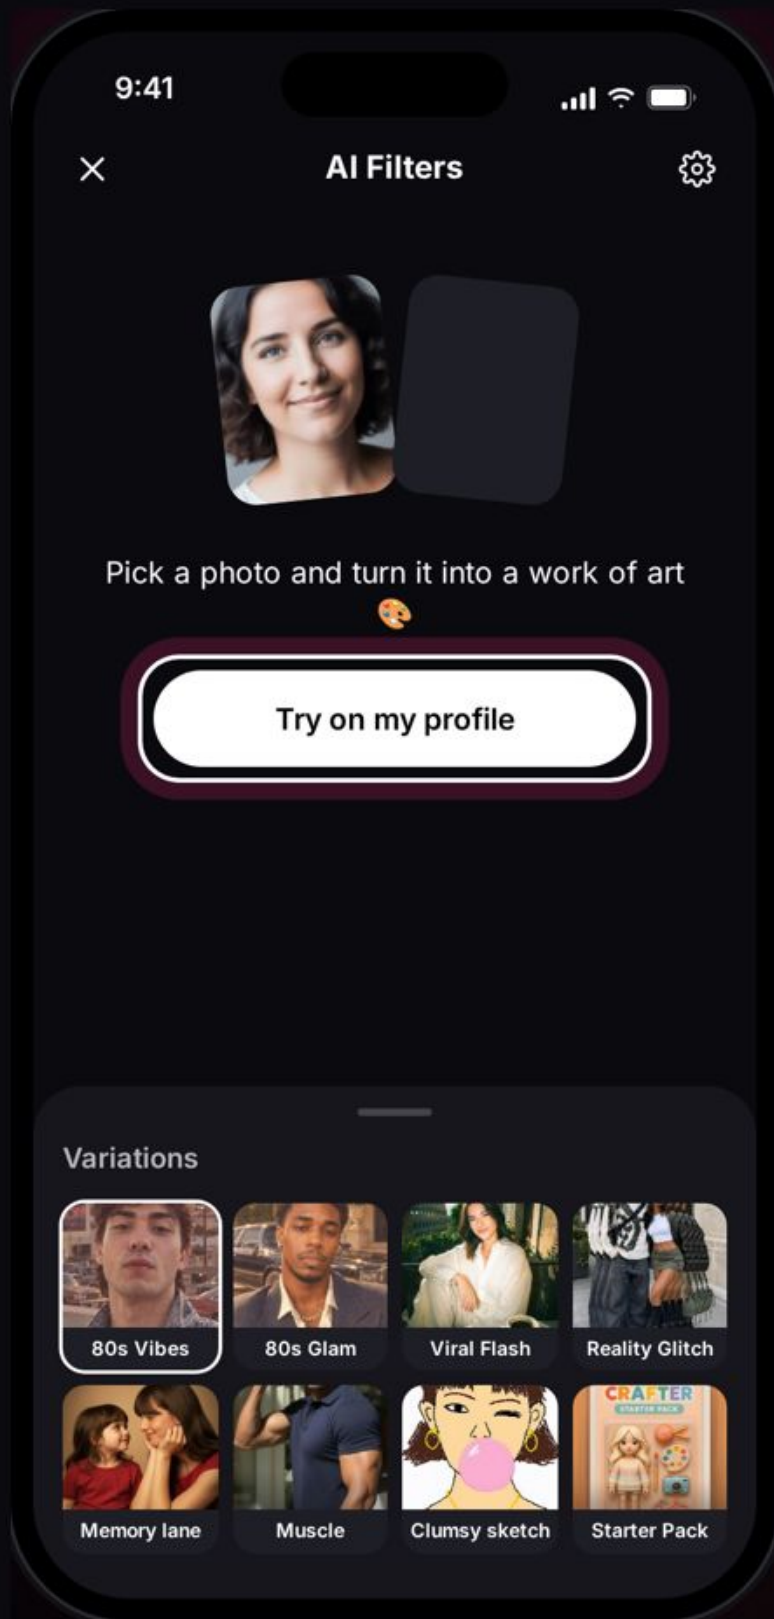

Studio holds only what you made and what you make with others. Trends, filters and effects stay on Remini's usual pages.

## STEP 3 OF 9 · KEPT IN STUDIO

# Me: locked in, adapted per creation

One profile, confirmed once and private. It adapts to each creation through versions: Work for the LinkedIn set, more as you create.

## STEP 4 OF 9 · ON YOUR OWN: FILTERS, PRESETS, CHATS

### AI Filters, on your profile

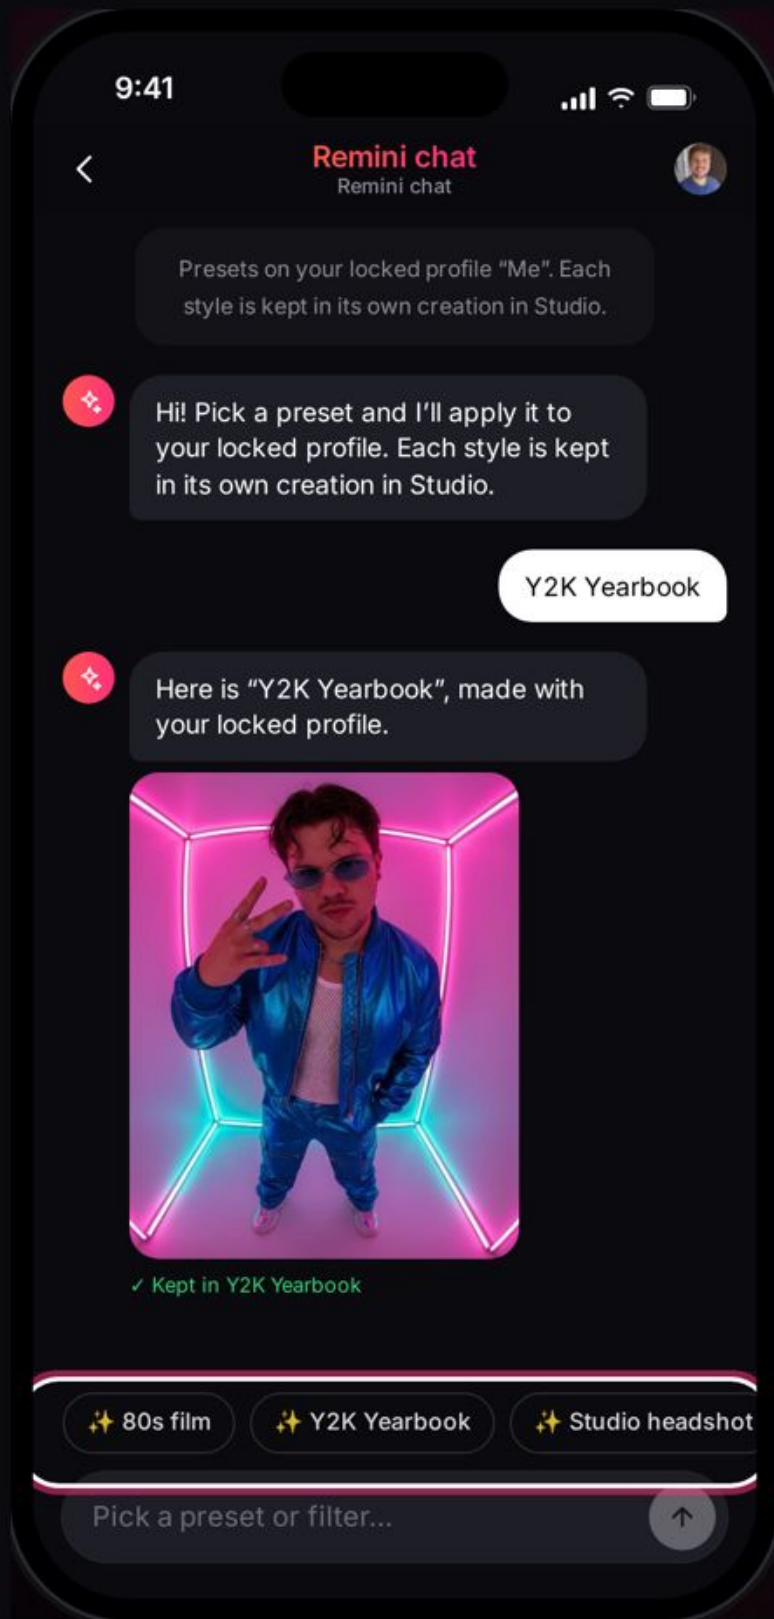

The usual AI Filters page. With your profile locked in, 80s Vibes runs on you directly, no photo to pick.

## STEP 4 OF 9 · ON YOUR OWN: FILTERS, PRESETS, CHATS

### One style, one creation

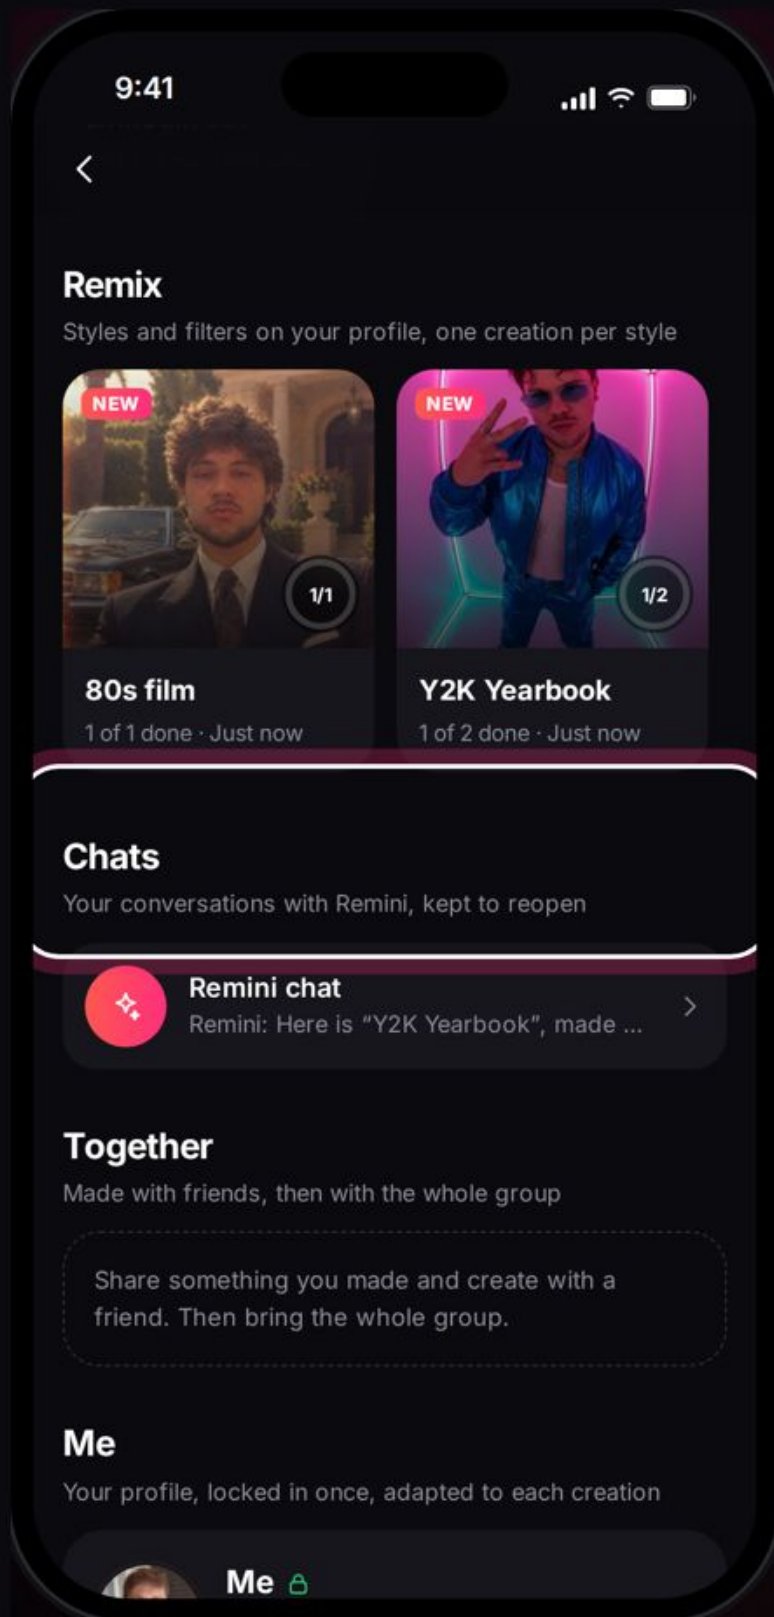

Keep it and it joins “80s film”, a creation with only that style. More results in it stay 80s; nothing gets mixed.

## STEP 4 OF 9 · ON YOUR OWN: FILTERS, PRESETS, CHATS

### Remini chat: presets

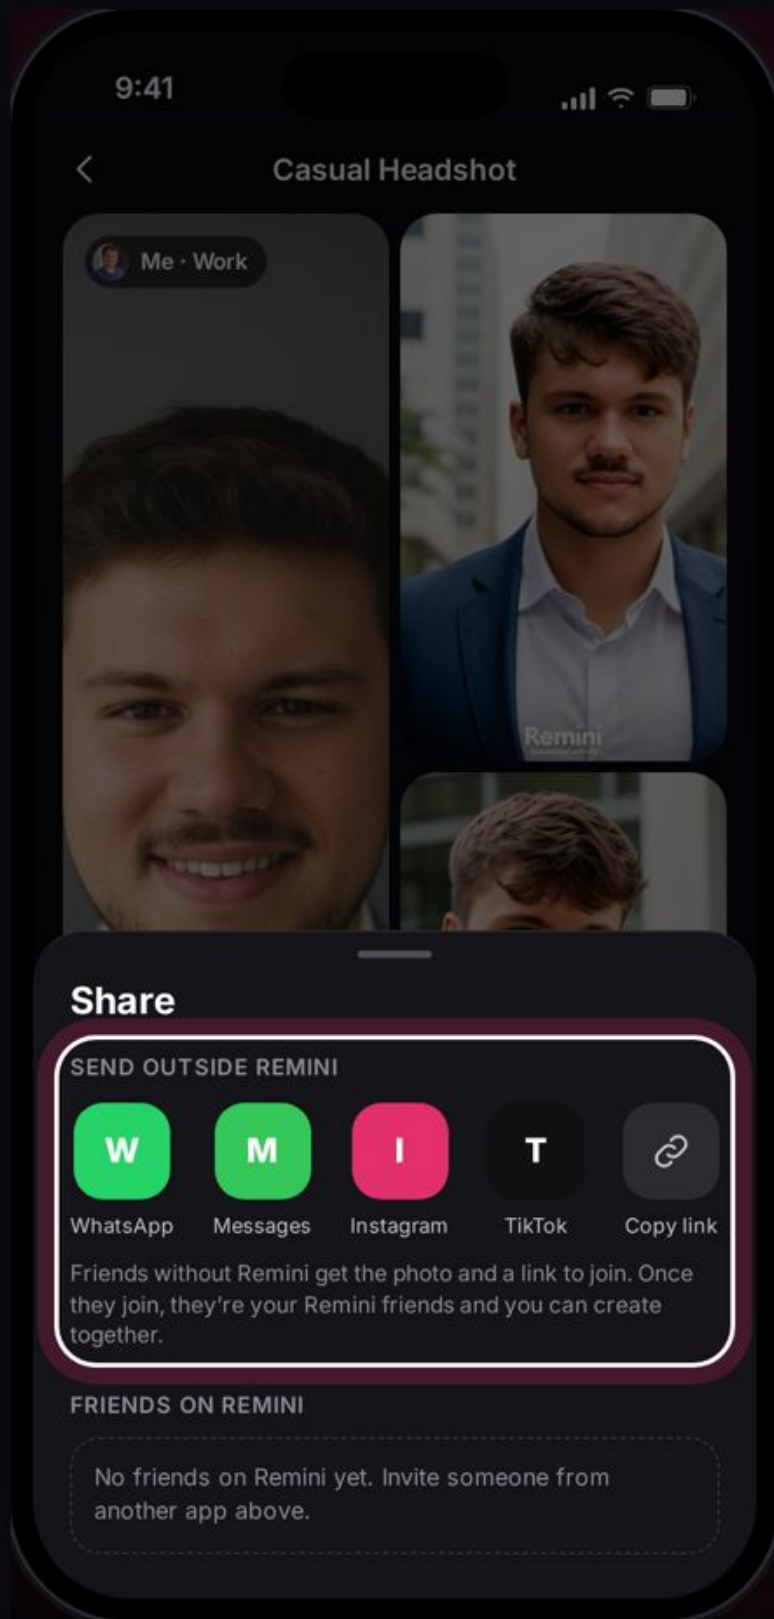

The chat bubble now knows your profile. Pick a preset (80s film, Y2K Yearbook, Studio headshot) and the result is kept in that style's creation.

## STEP 4 OF 9 · ON YOUR OWN: FILTERS, PRESETS, CHATS

# Remix and Chats, kept in Studio

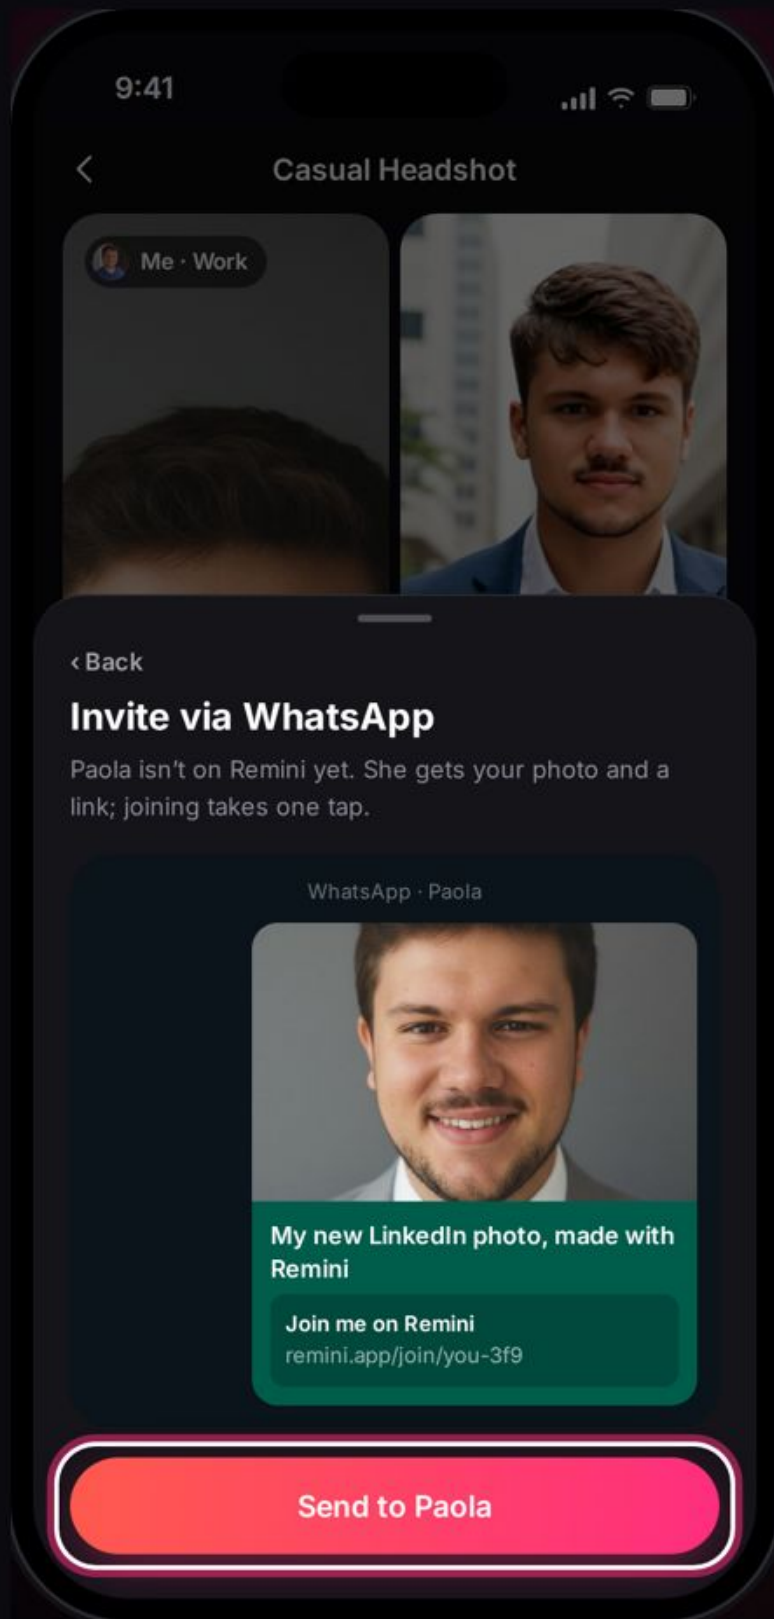

Your versions of each style live under Remix; every conversation with Remini is under Chats, ready to reopen.

## STEP 5 OF 9 · ONE FRIEND

# Share outside Remini

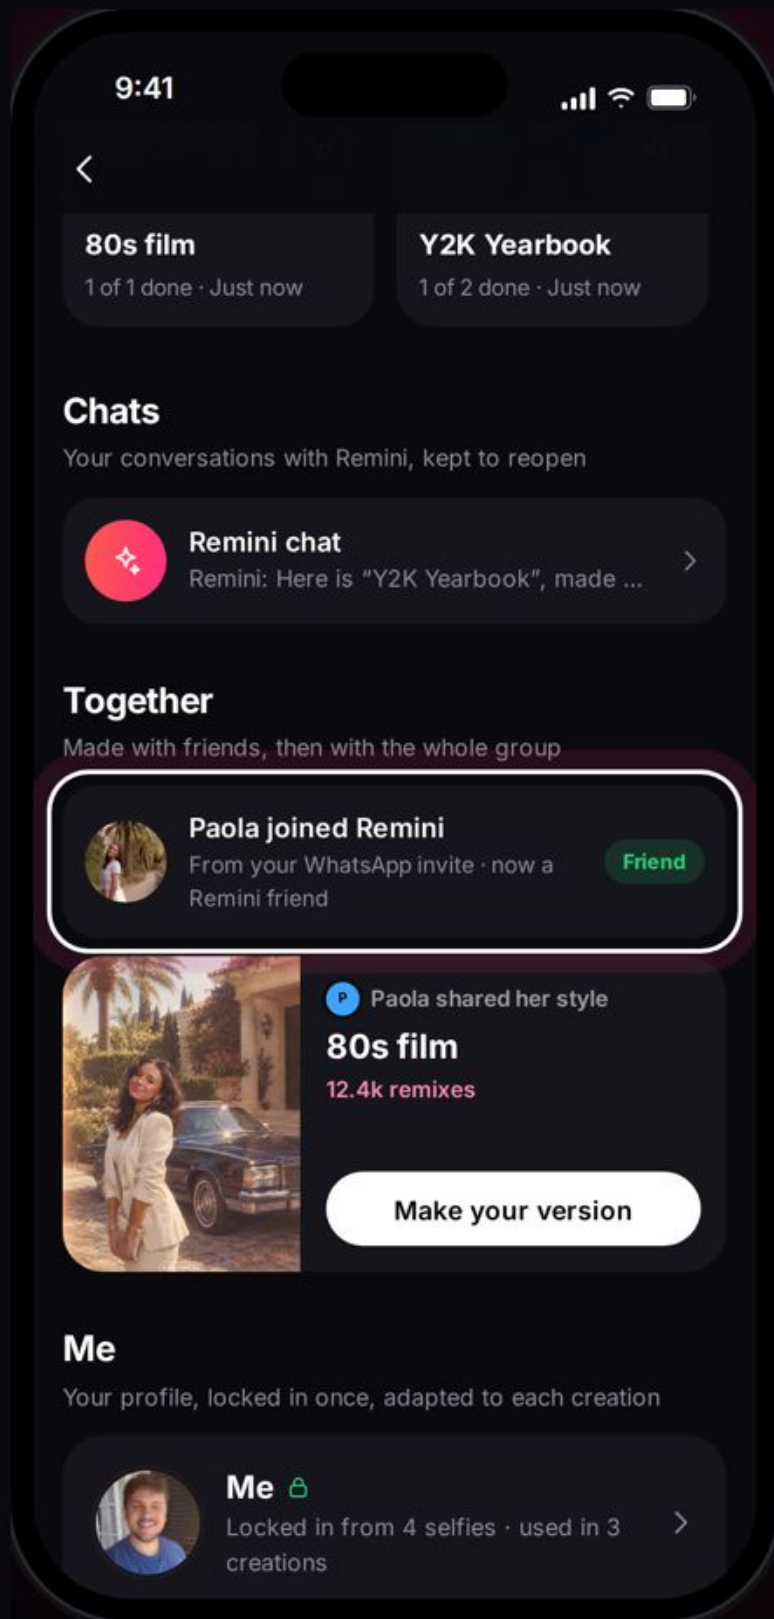

Share works as usual: WhatsApp, Messages, Instagram, TikTok or a link. Friends without Remini get the photo and a link to join; friends already on Remini are listed below.

## STEP 5 OF 9 · ONE FRIEND

# An invite on WhatsApp

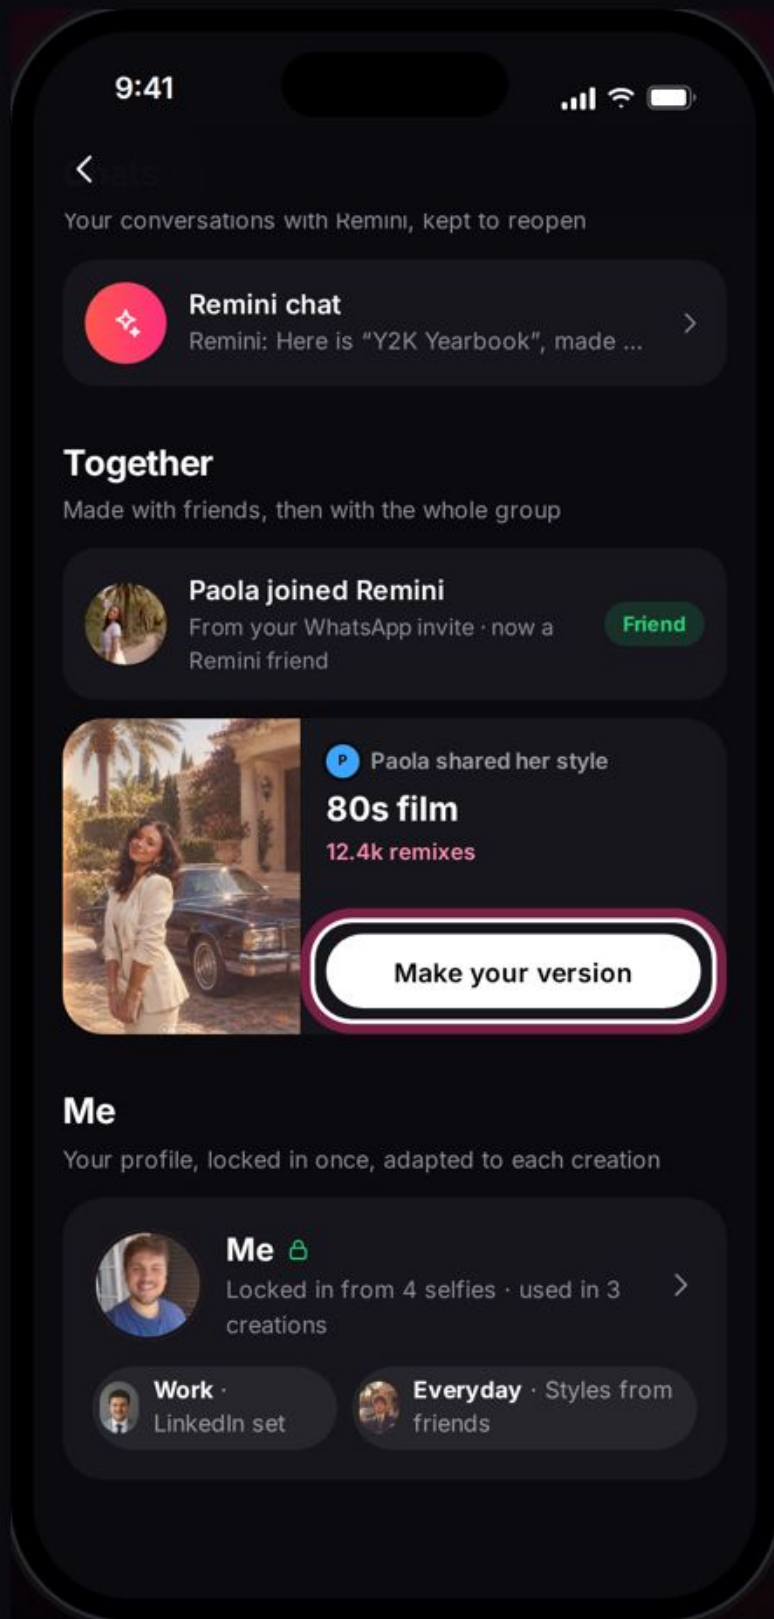

Paola isn't on Remini yet. She gets your headshot with "Join me on Remini" and a link.

## STEP 5 OF 9 · ONE FRIEND

# Paola joined Remini

She installs from the link and is now your Remini friend. From here on you create together inside Remini.

## STEP 5 OF 9 · ONE FRIEND

# Paola shares her style back

As a Remini friend, Paola shares her 80s film style with you. "Make your version" applies it to you.

## STEP 5 OF 9 · ONE FRIEND

### Your version, same profile

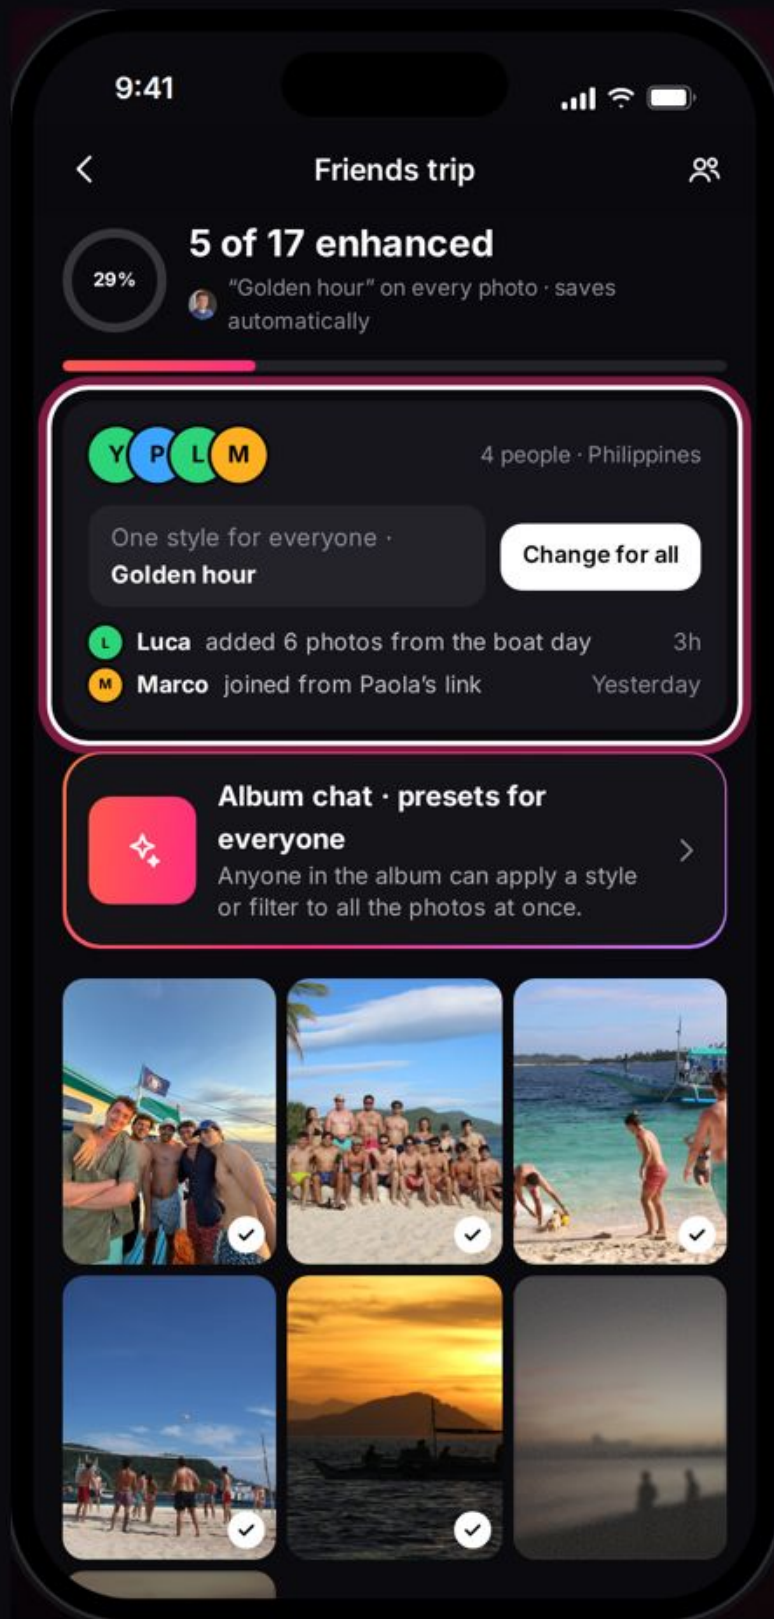

Paola's style on you, with your own locked profile (its Everyday version). Now make one photo together.

## STEP 5 OF 9 · ONE FRIEND

# You and Paola

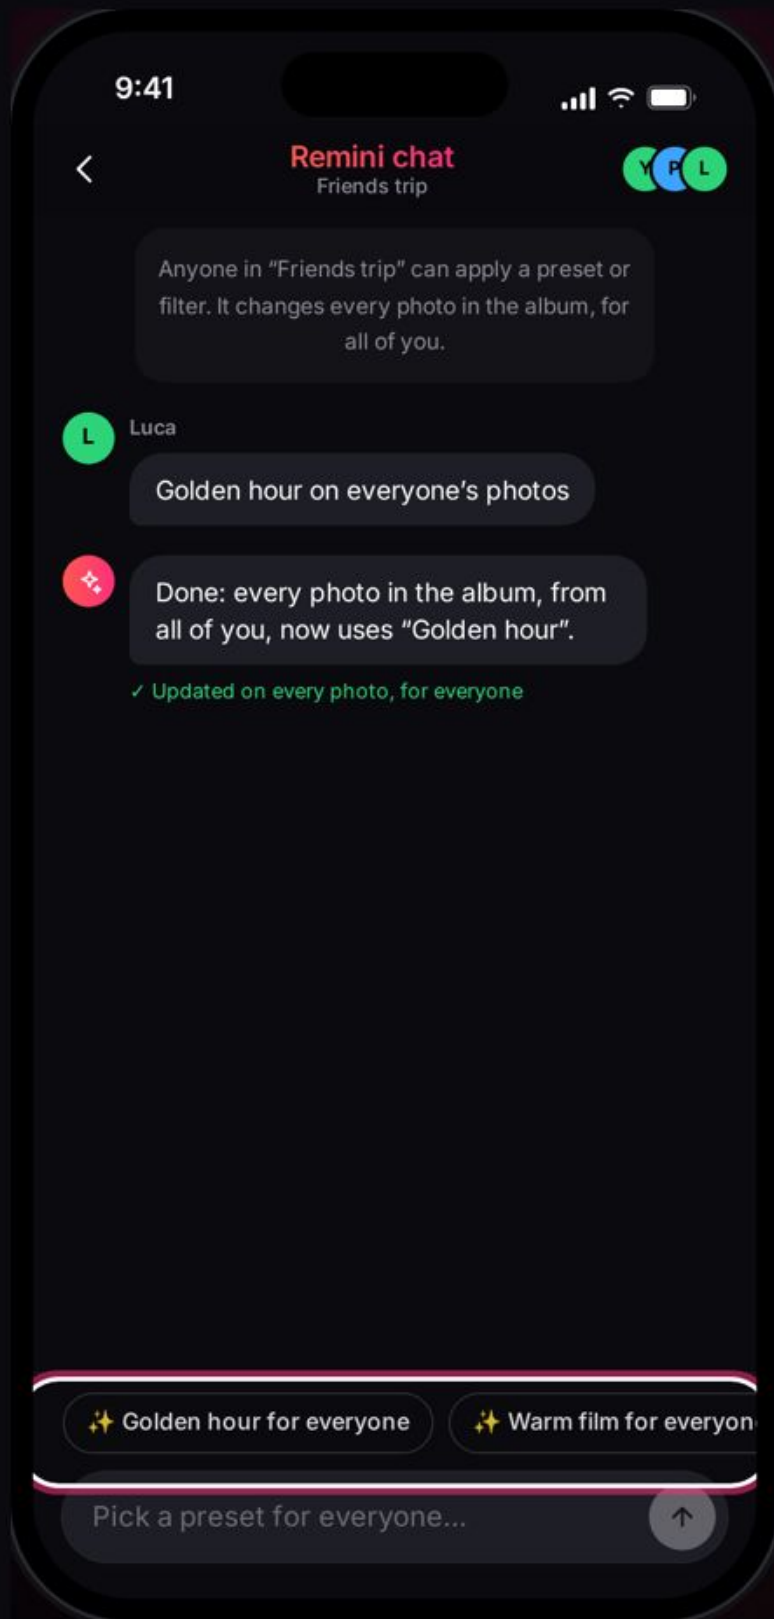

One photo, each of you with your own profile. Keep it, or bring the whole group.

## STEP 6 OF 9 · THE WHOLE GROUP

# The whole group: Friends trip

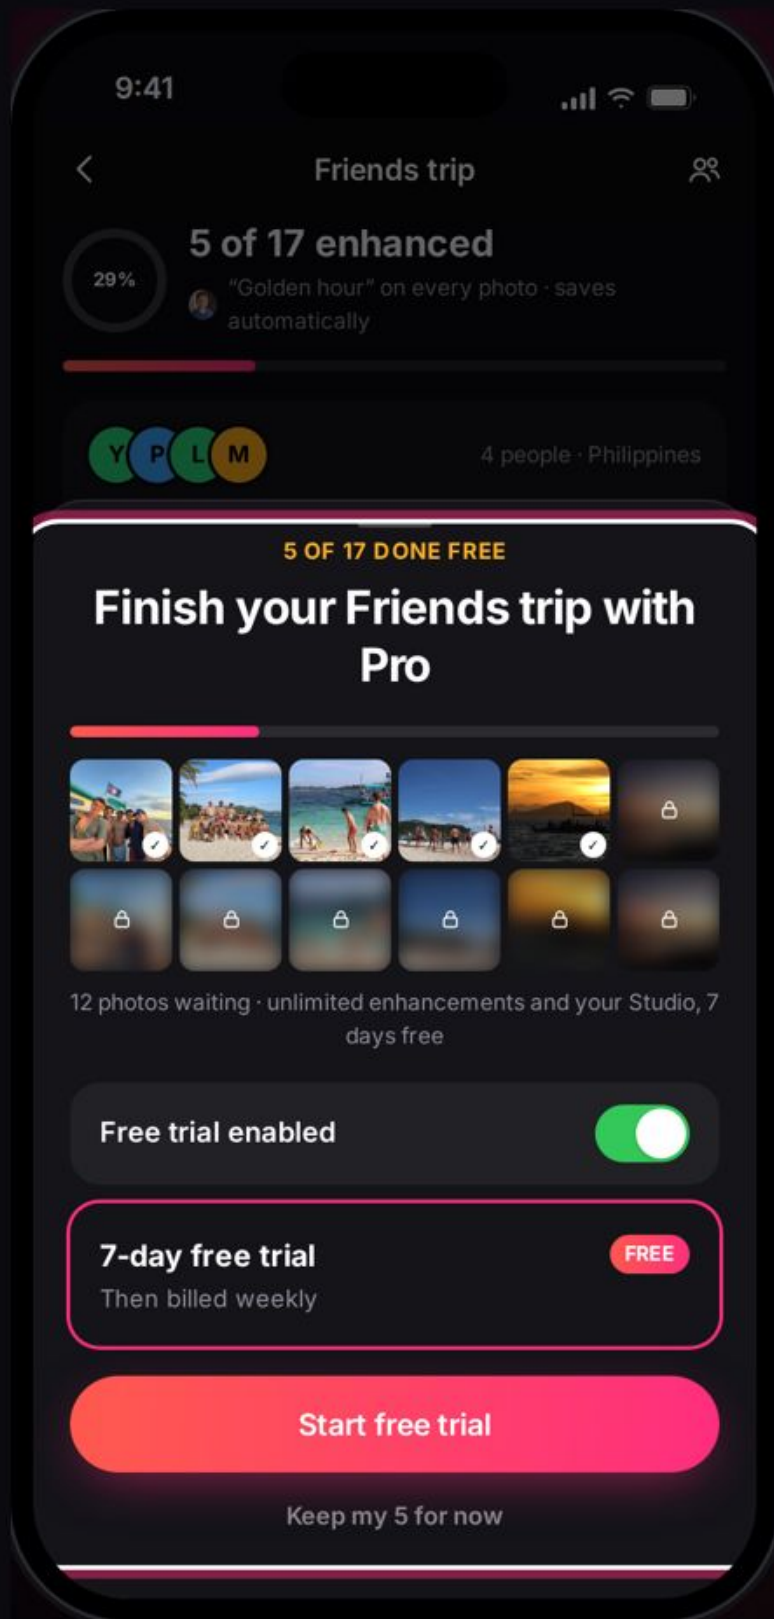

An album from the Philippines with Paola, Luca and Marco. Everyone adds photos, and one style applies to all of them.

## STEP 6 OF 9 · THE WHOLE GROUP

# Presets for everyone

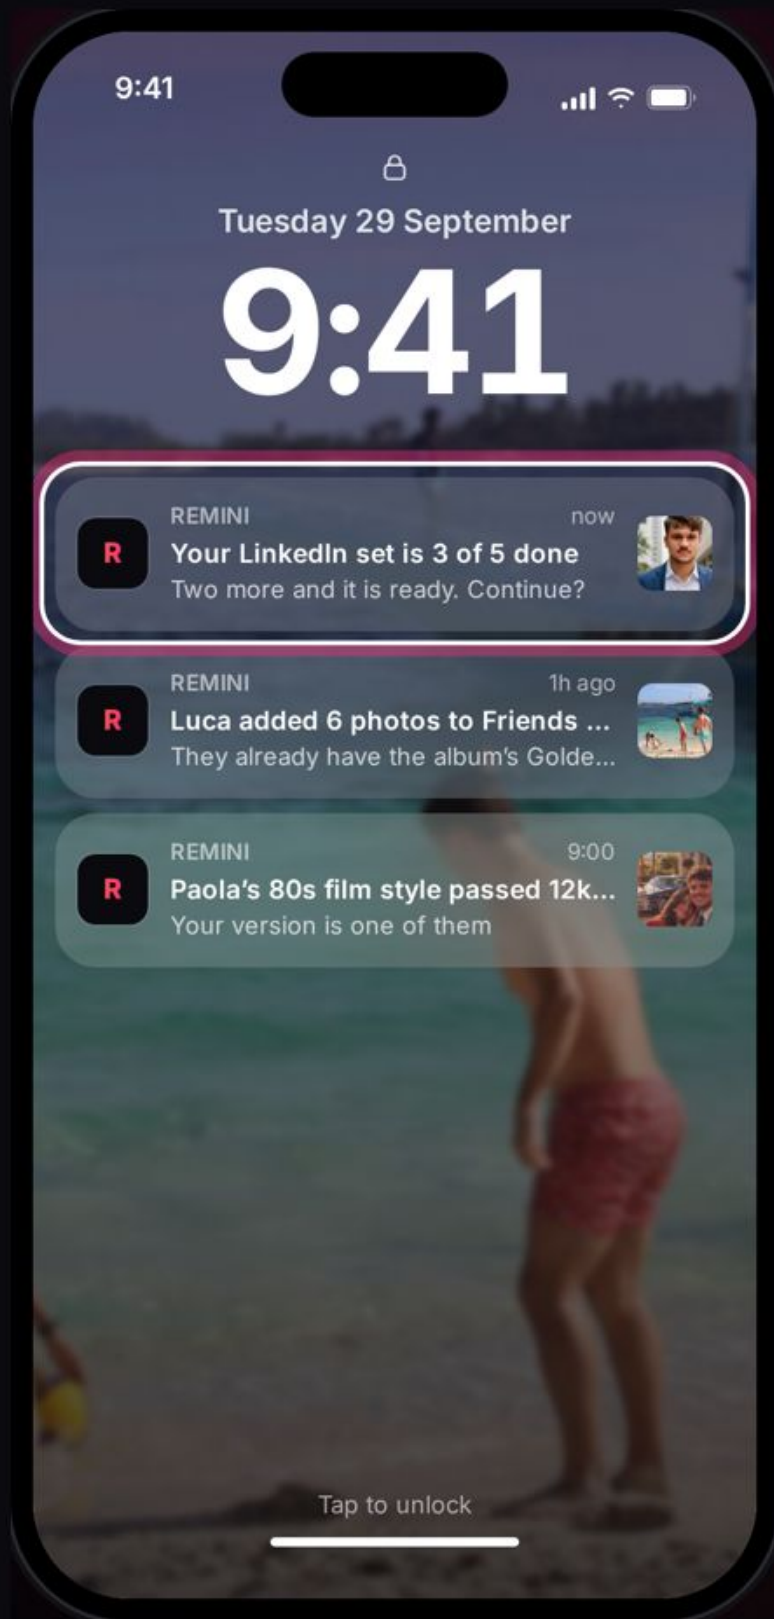

The album chat works with presets and filters. Luca set Golden hour; one tap on another look changes every friend's photos together.

## STEP 7 OF 9 · FREE USAGE ENDS

### Finish it with Pro

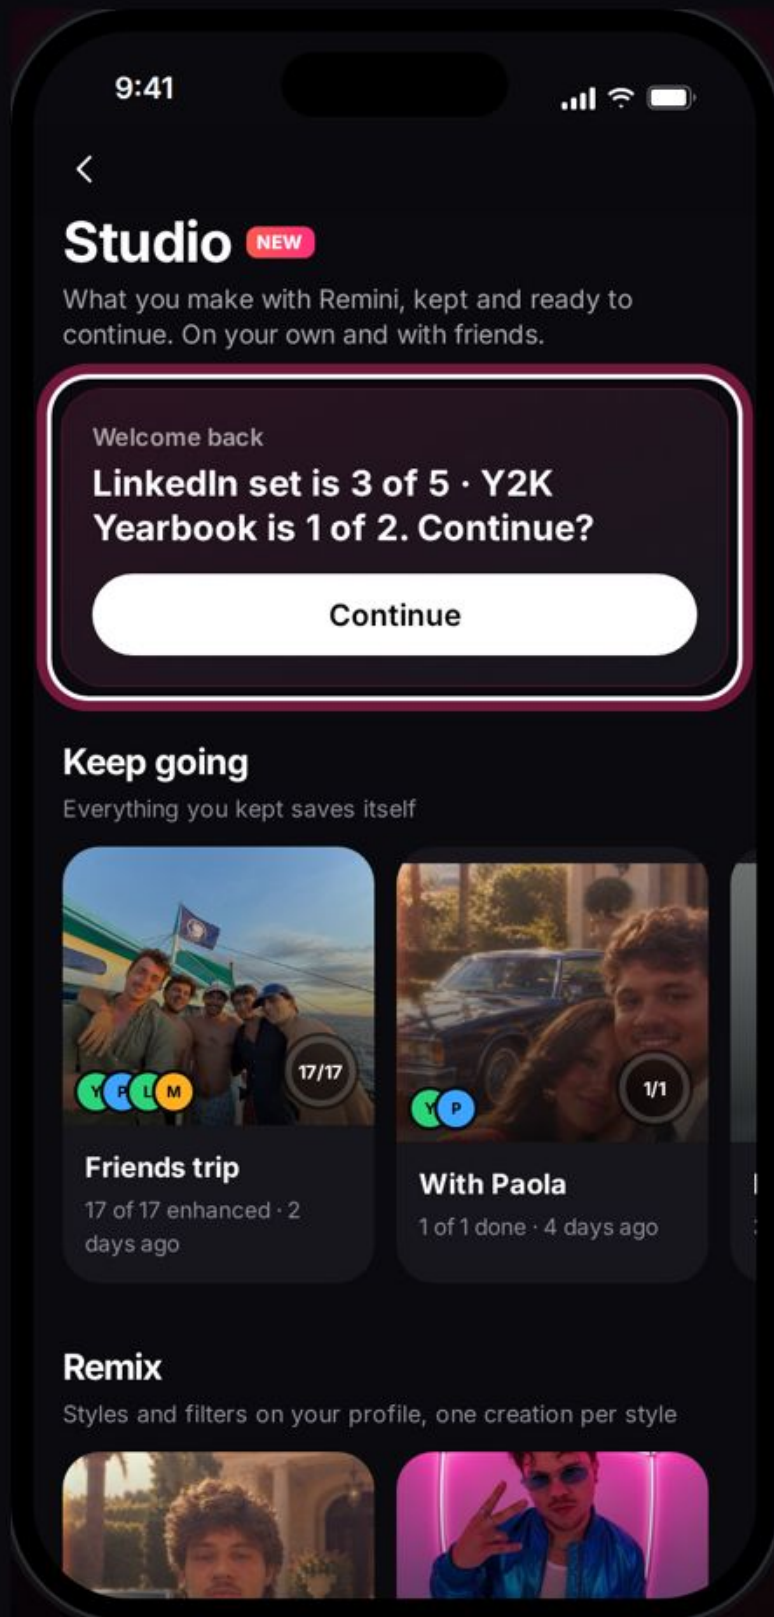

By now you have shared, created with friends and used your free enhancements. “Enhance all” offers the trial on work you care about: 5 of 17 done.

## STEP 8 OF 9 · COMING BACK

### Coming back

Days later a notification brings you back to your own work.

## STEP 8 OF 9 · COMING BACK

# Welcome back

Studio opens on what is waiting: the LinkedIn set at 3 of 5. The album with the group is finished and kept. Continue where you left off.

## Why it pays

The business case: move the levers and see the NPV.
