

Step 1 of 9 · Remini today

Remini today

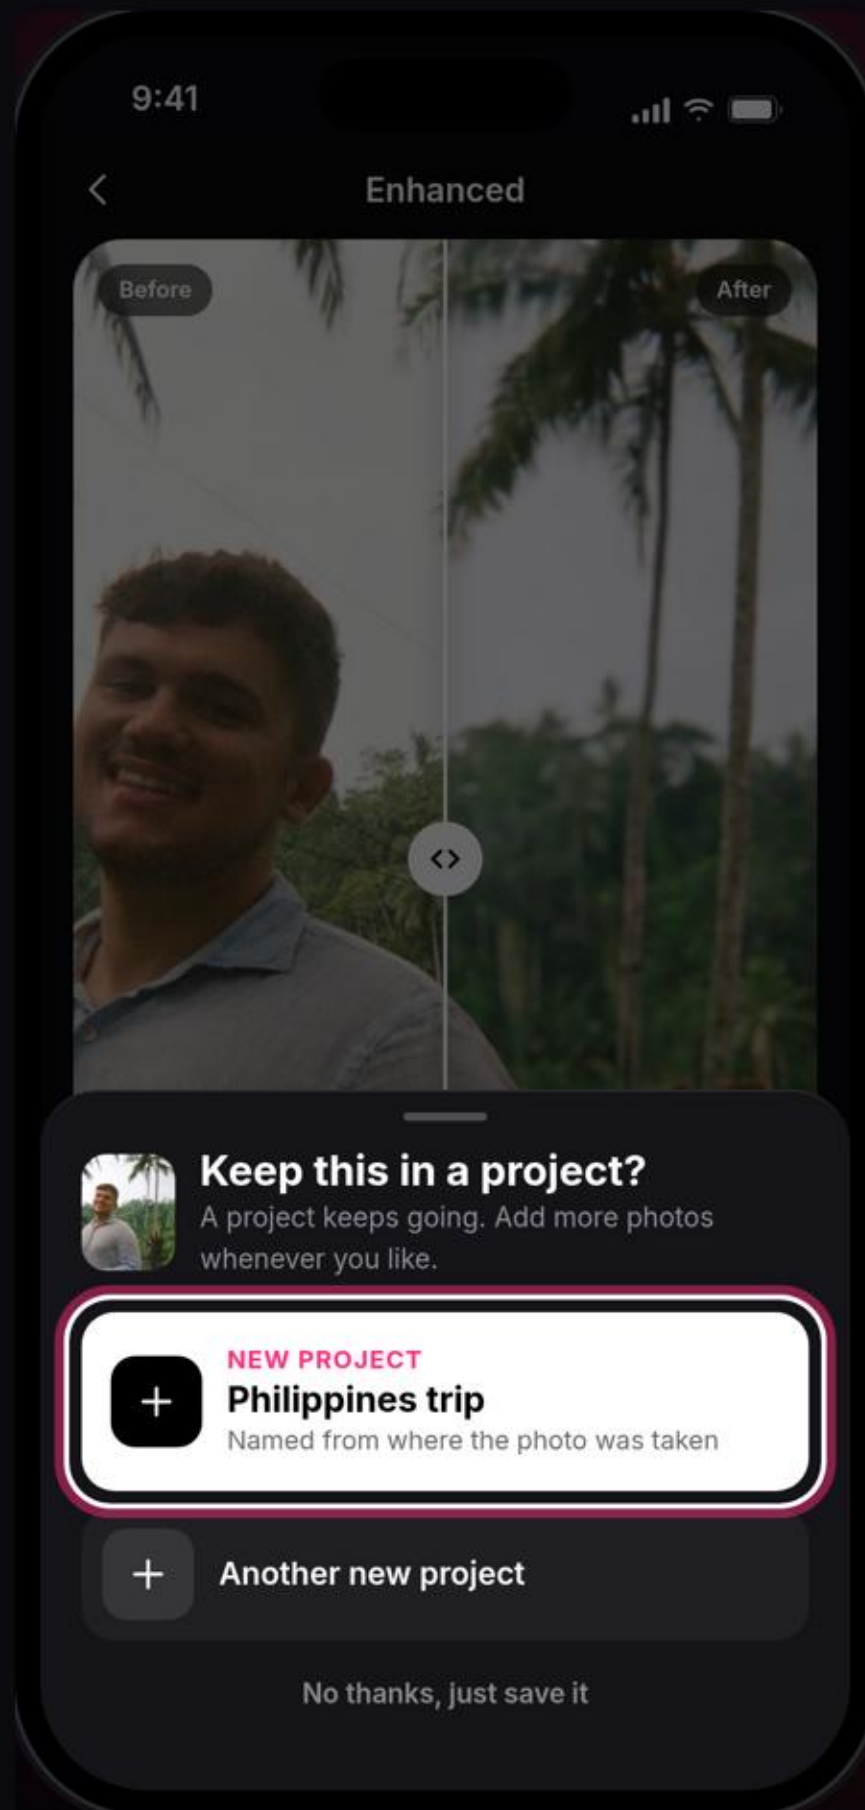

The app you know: Enhance, Retouch and trends on the home, AI Photos, Filters and Videos below, Remini Chat in the corner.

Step 1 of 9 · Remini today

One photo, one result

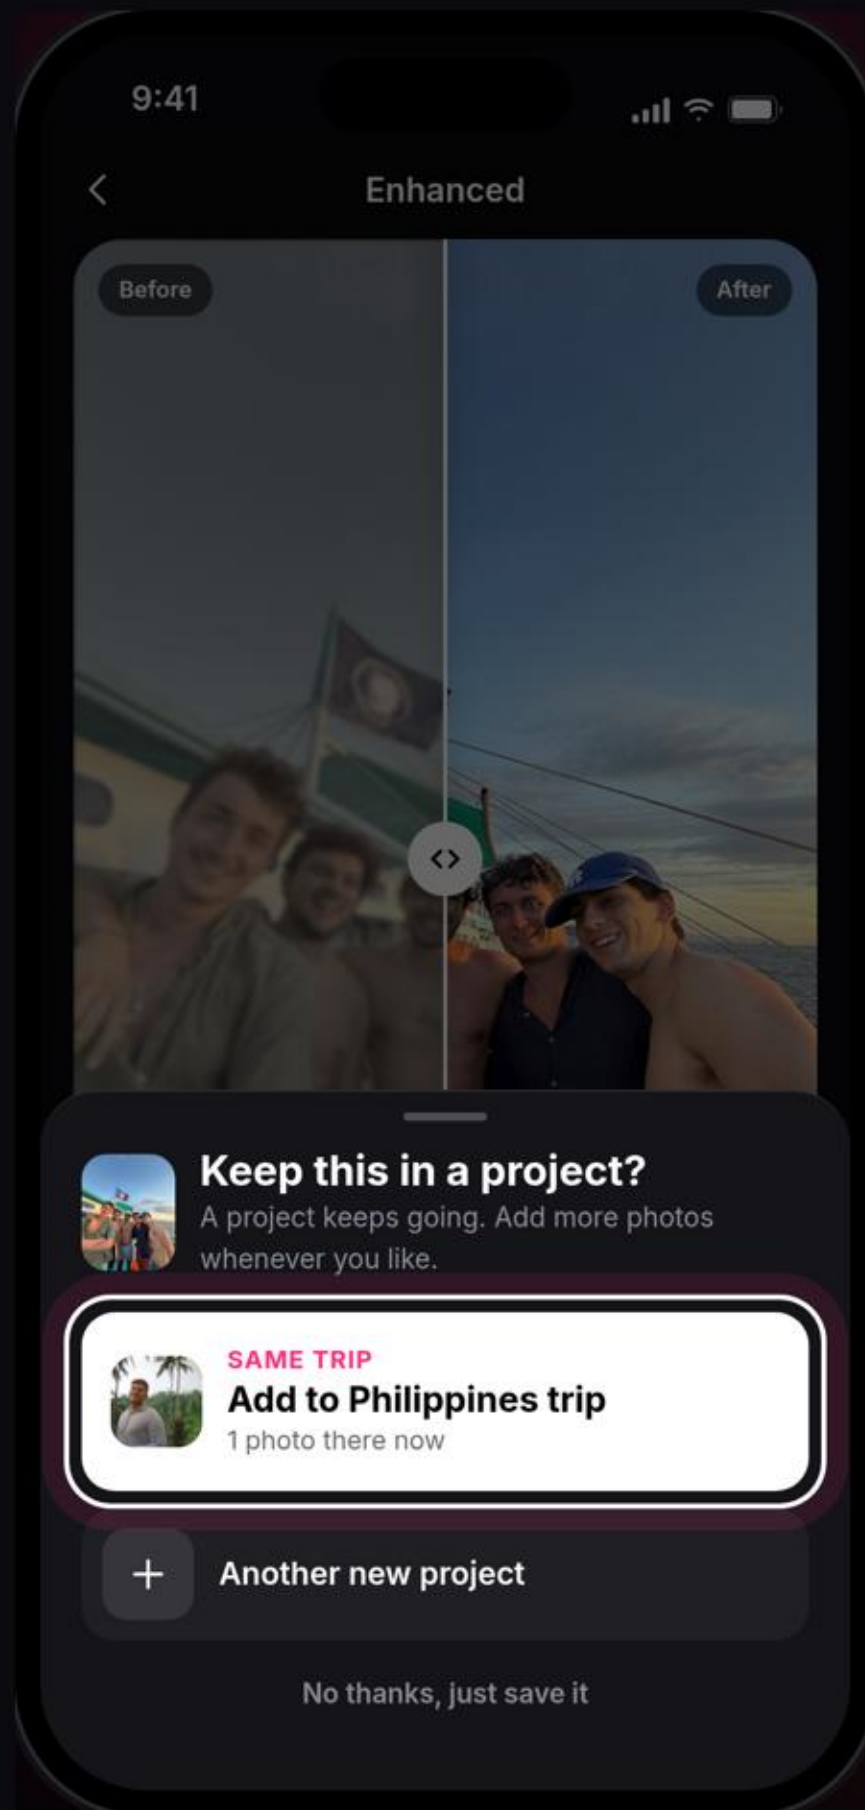

A quick enhance: one photo, one result, saved to the camera roll. Nothing carries on after it.

Step 2 of 9 · Keep

Keep, next to Save and Share

The same enhance, with Studio. Save and Share stay as they are. Keep puts the photo in a new project, named after the trip.

Step 2 of 9 · Keep

A second photo, same trip

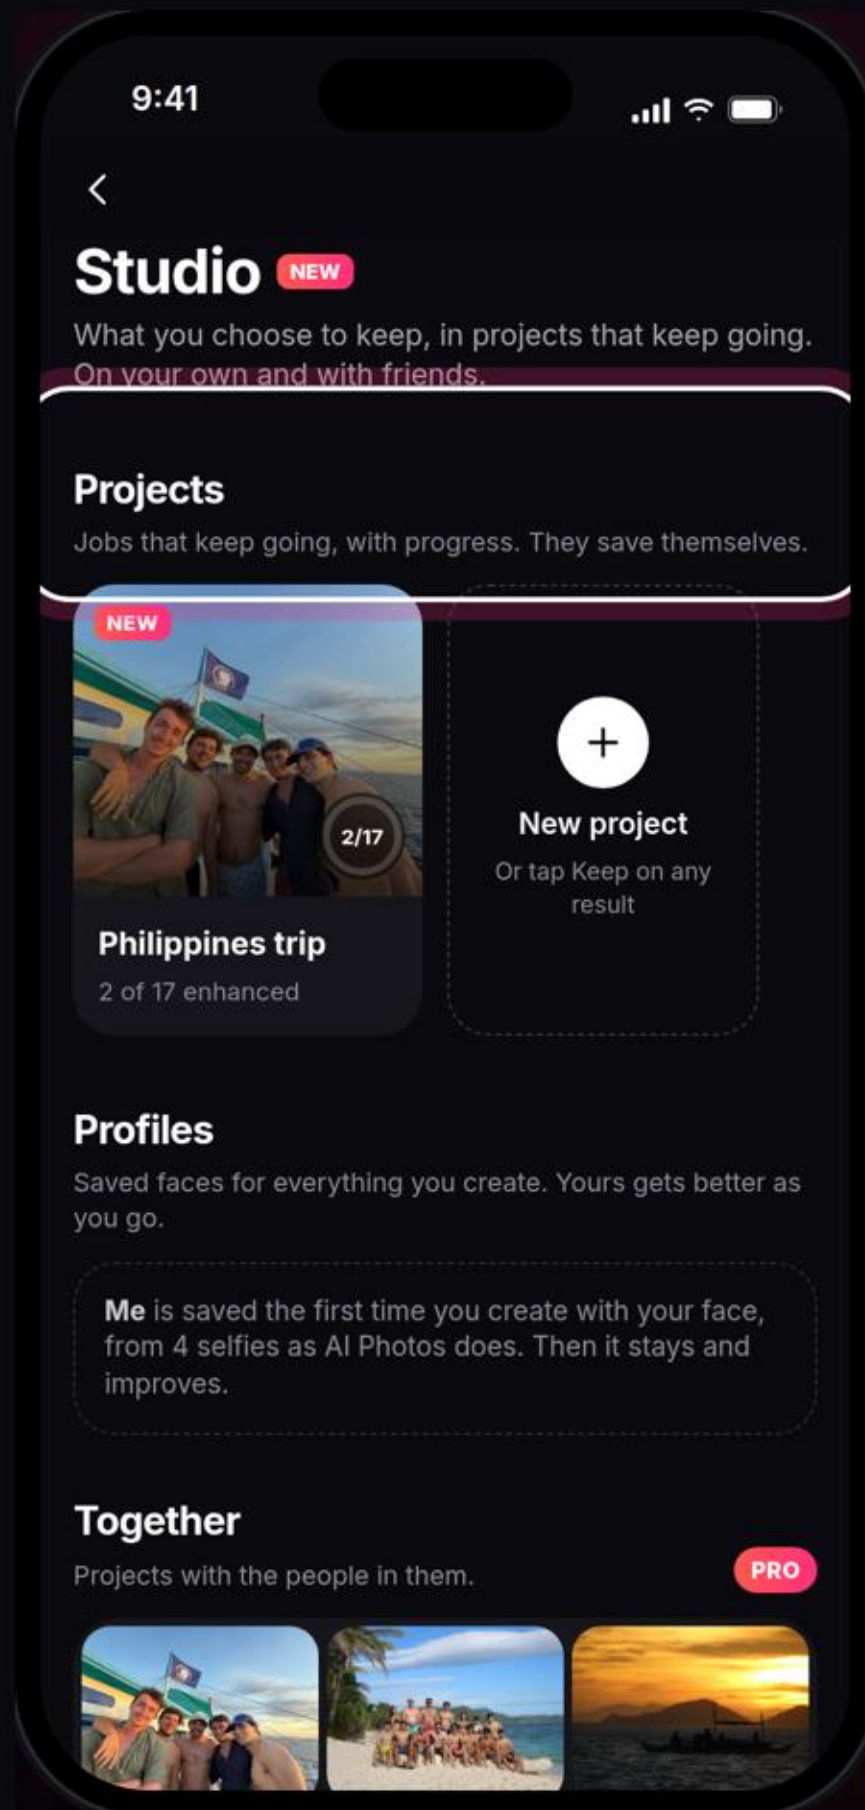

Another photo from the trip, another Keep. Now the trip is worth building.

Step 3 of 9 · The project

Building the trip

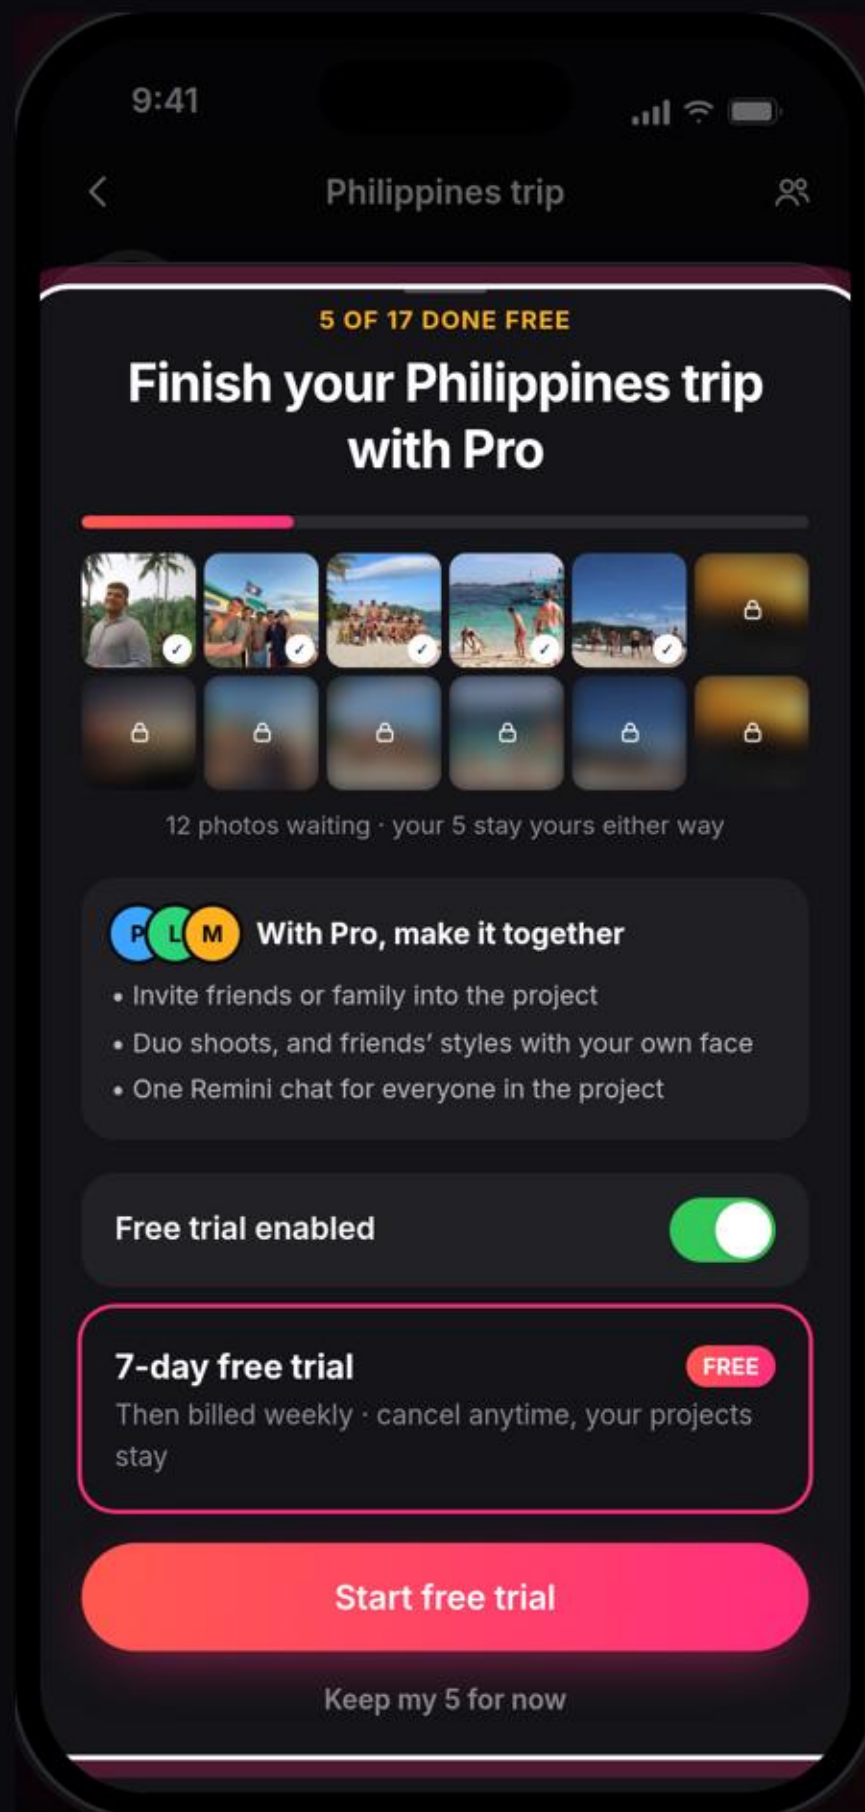

You add the rest from your gallery: 17 photos, 2 done. Enhance all does the others in one go.

Step 3 of 9 · The project

This is Studio

What you choose to keep, in projects that keep going. Below: your profiles, and Together, for friends.

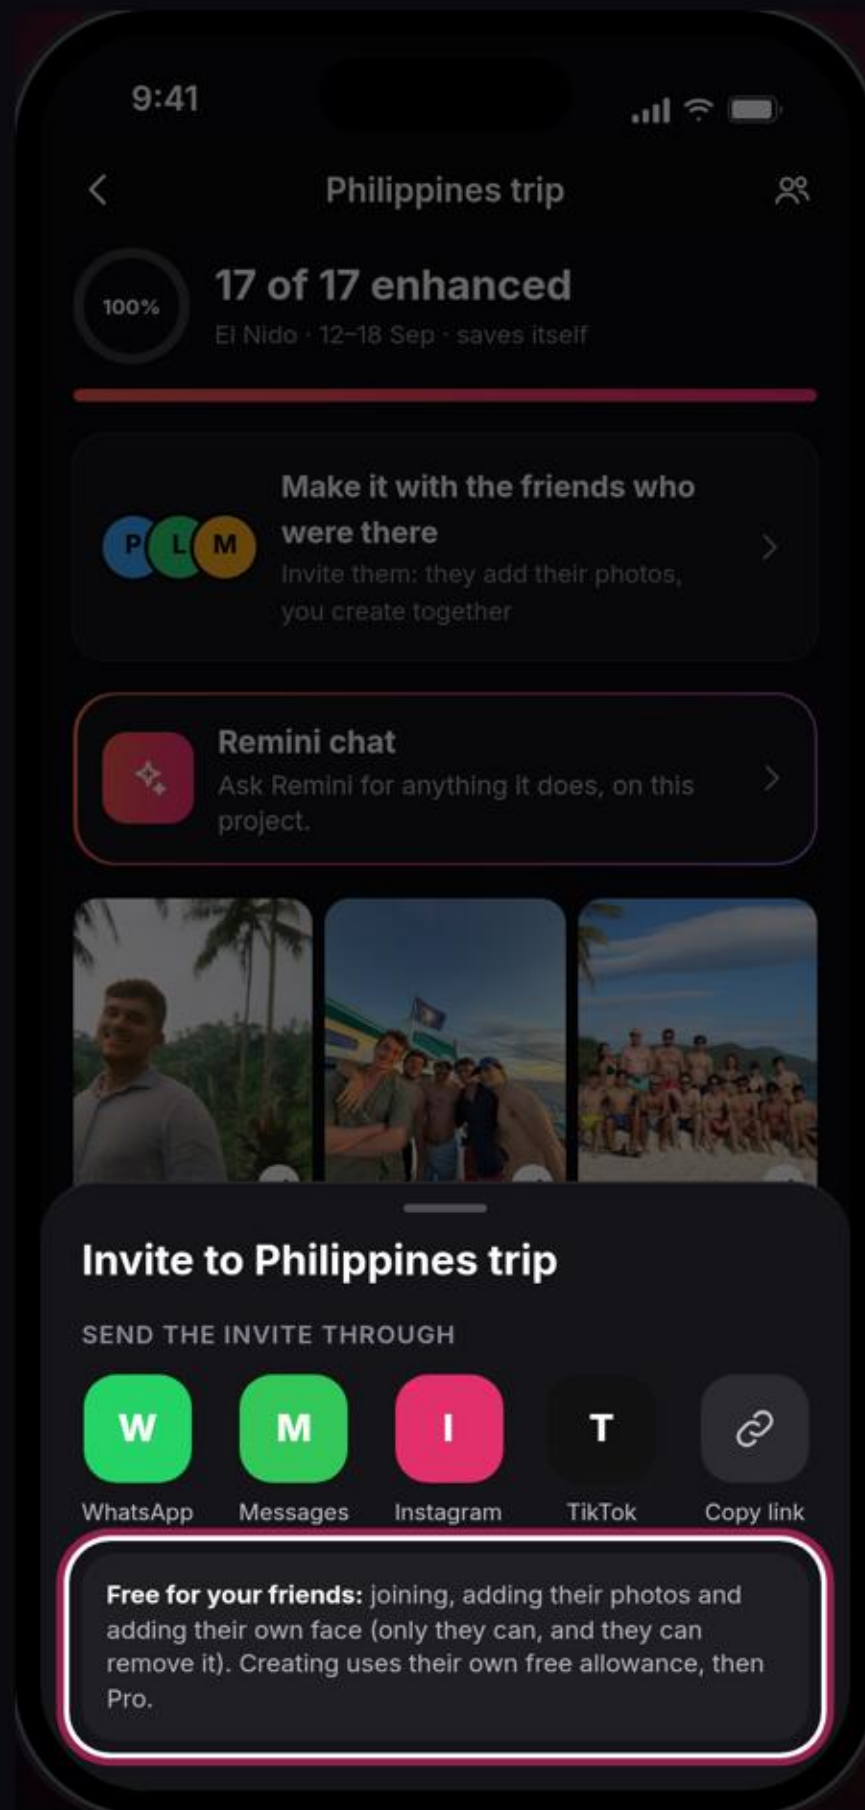

Step 4 of 9 · The free limit

The free limit, inside the trip

Free limits stay the same. They land on something you care about: 5 of 17 done. Pro finishes the trip and brings your friends in.
