

Step 1 of 9 · Remini today

Remini today

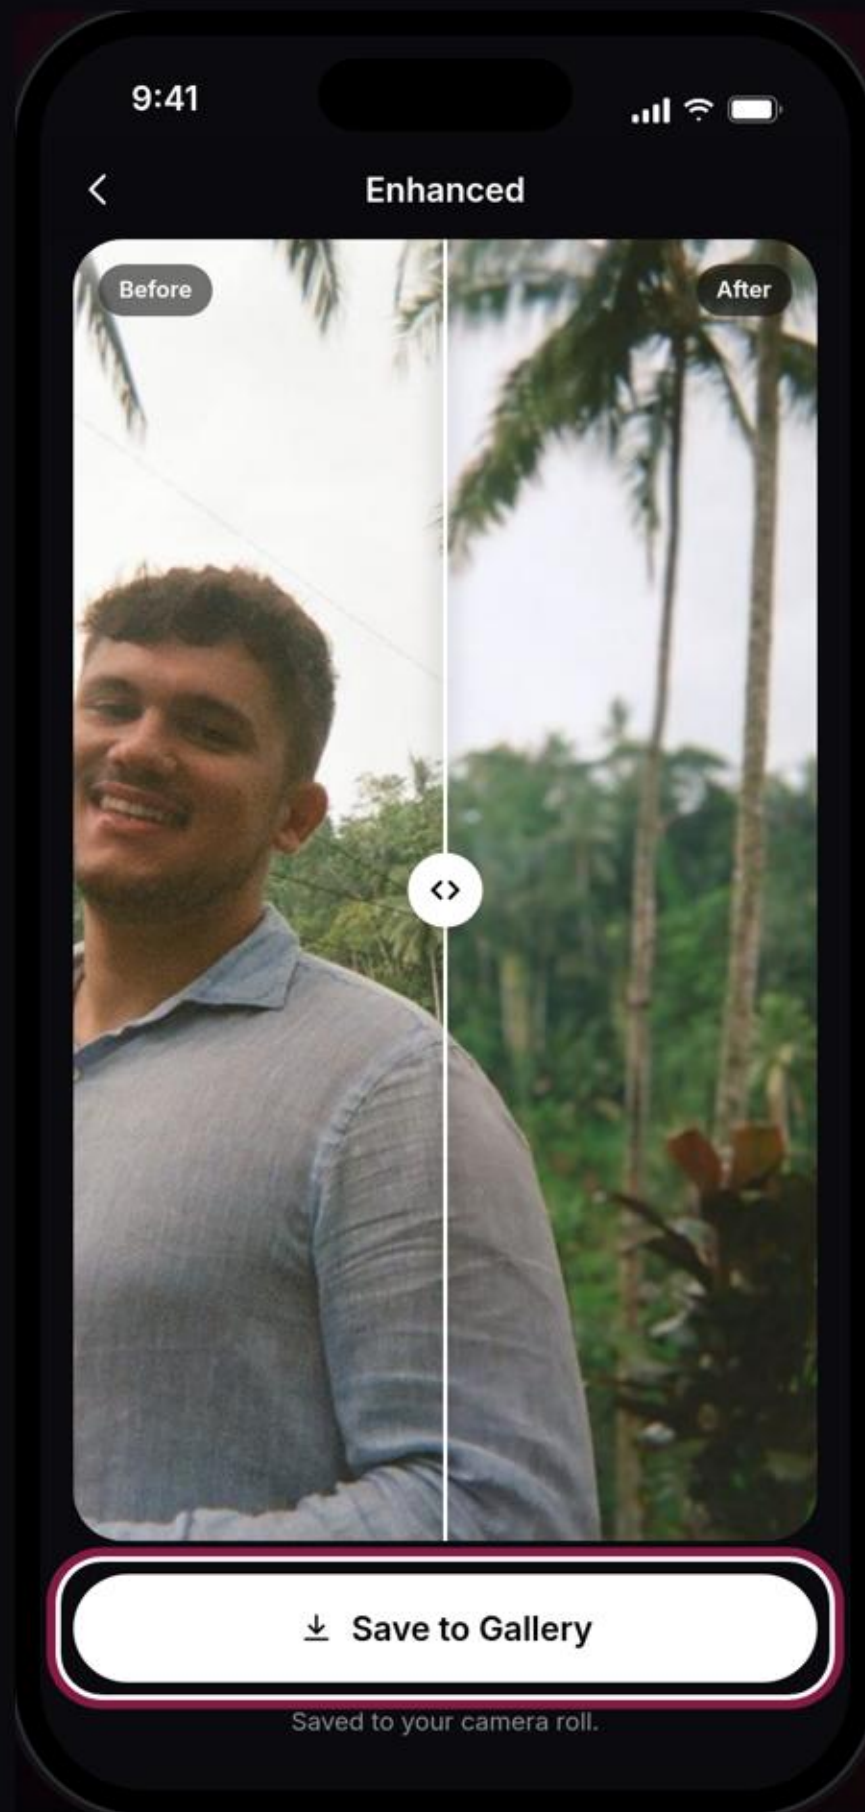

The app you know: Enhance, Retouch and trends on the home, AI Photos, Filters and Videos below, Remini Chat in the corner.

Step 1 of 9 · Remini today

A face profile already exists

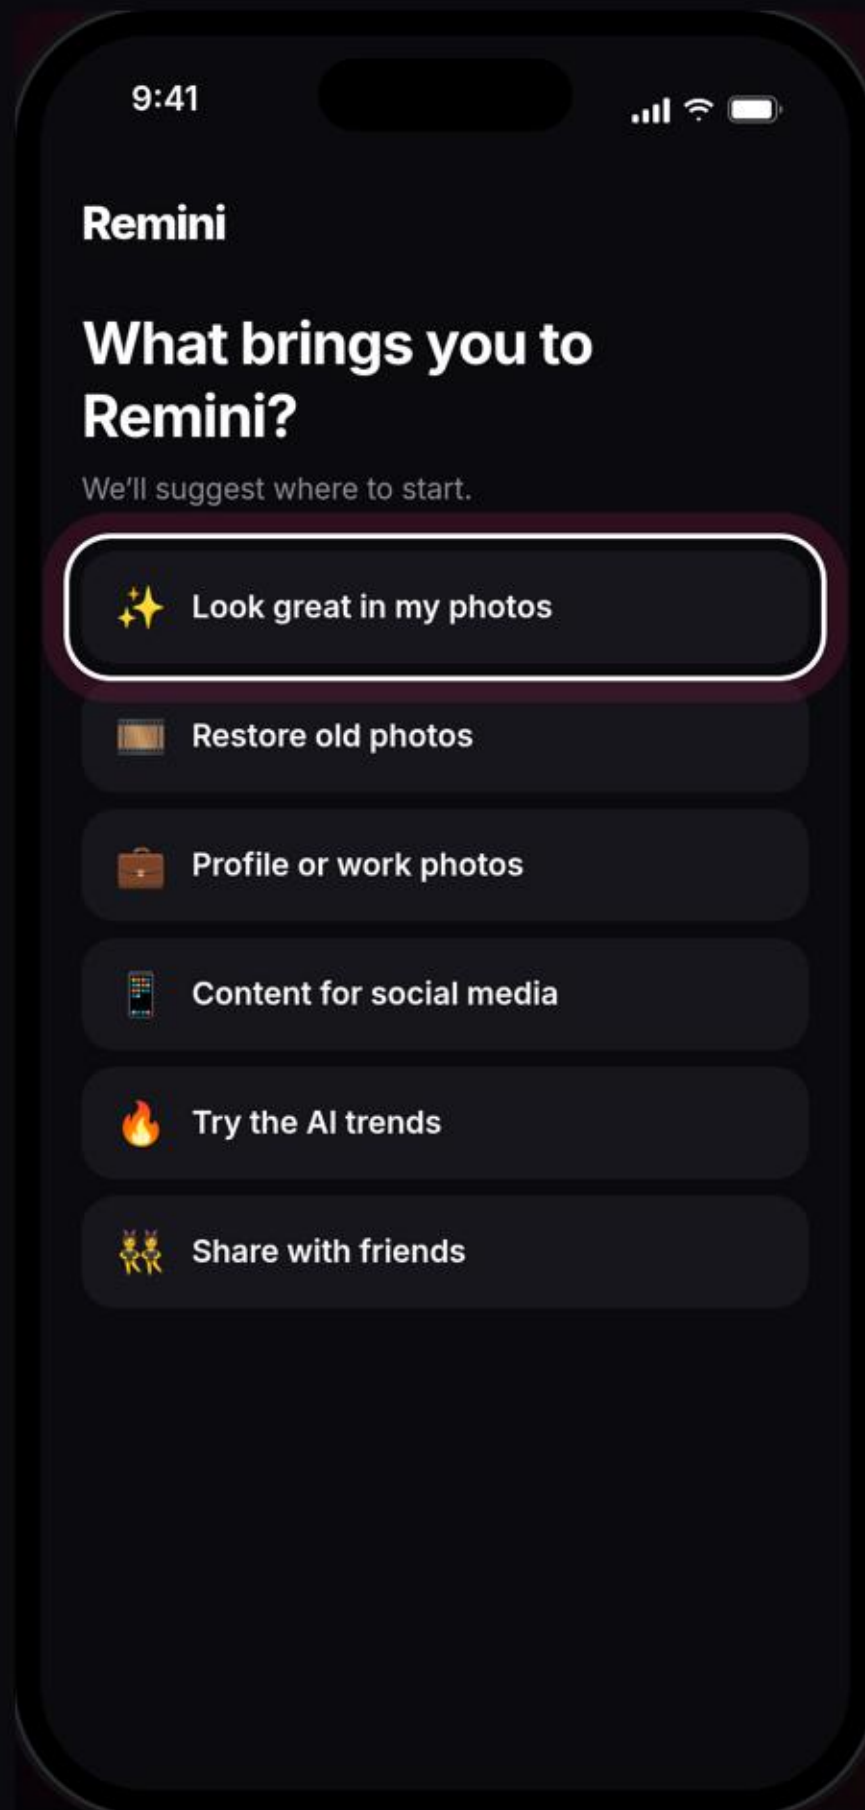

AI Photos already makes a profile from 4 selfies and lists the results by pack. Studio builds on this.

Step 1 of 9 · Remini today

One photo, one result

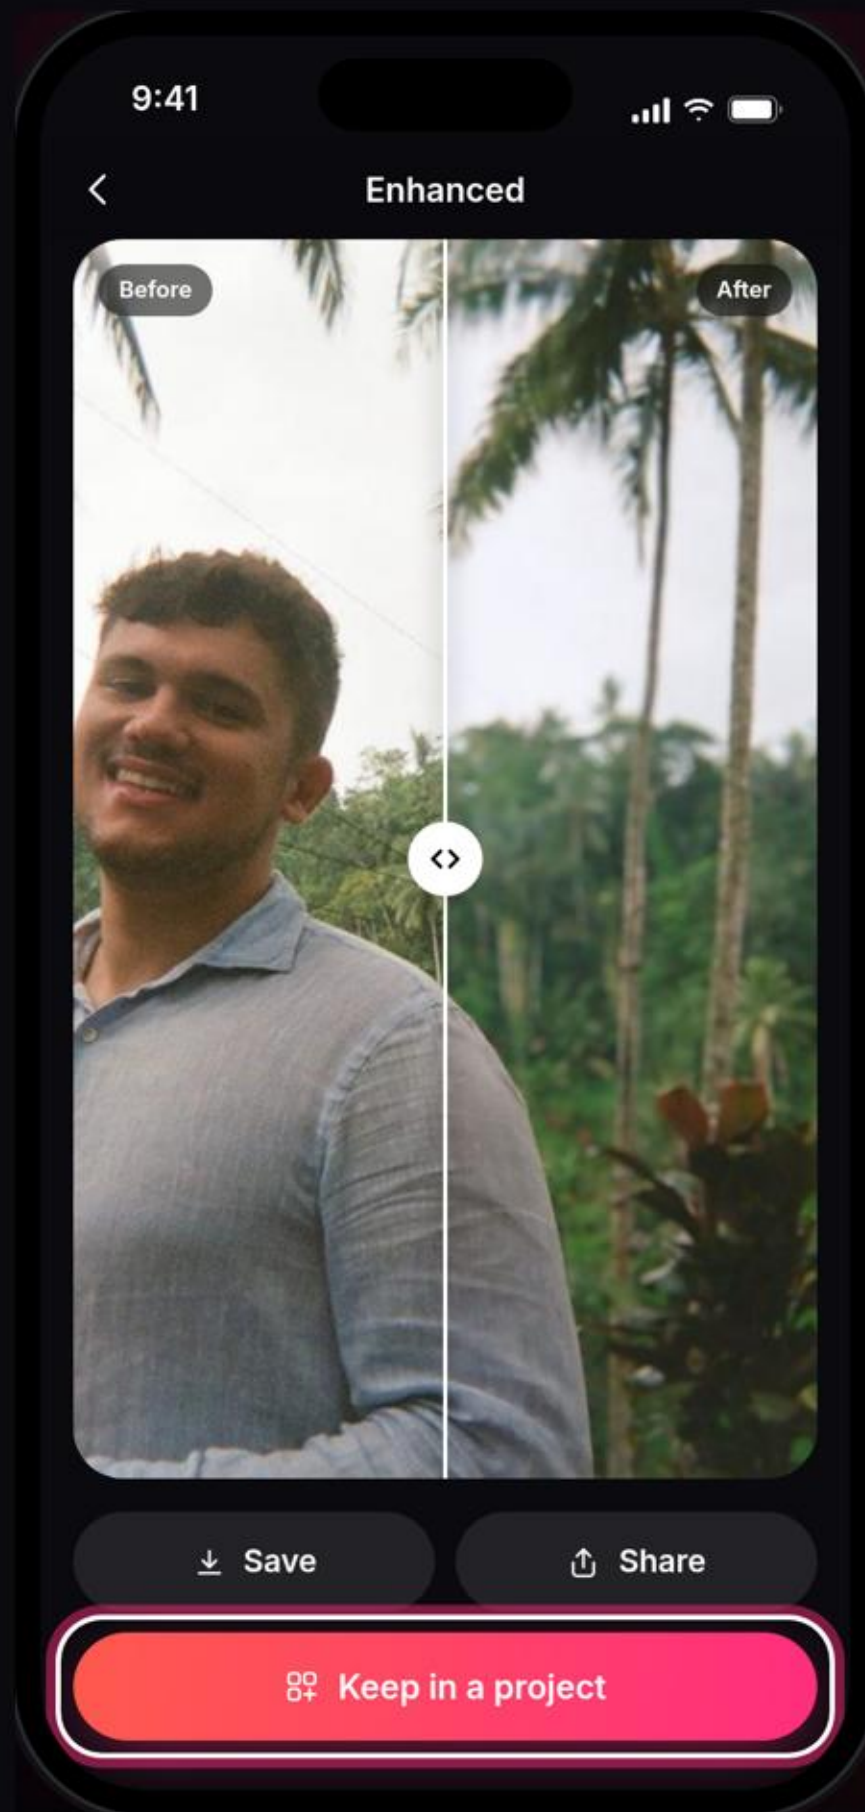

A quick enhance ends where it should:
saved to the camera roll. Now the same
app, with Studio.

Step 2 of 9 · Start as usual

What brings you to Remini?

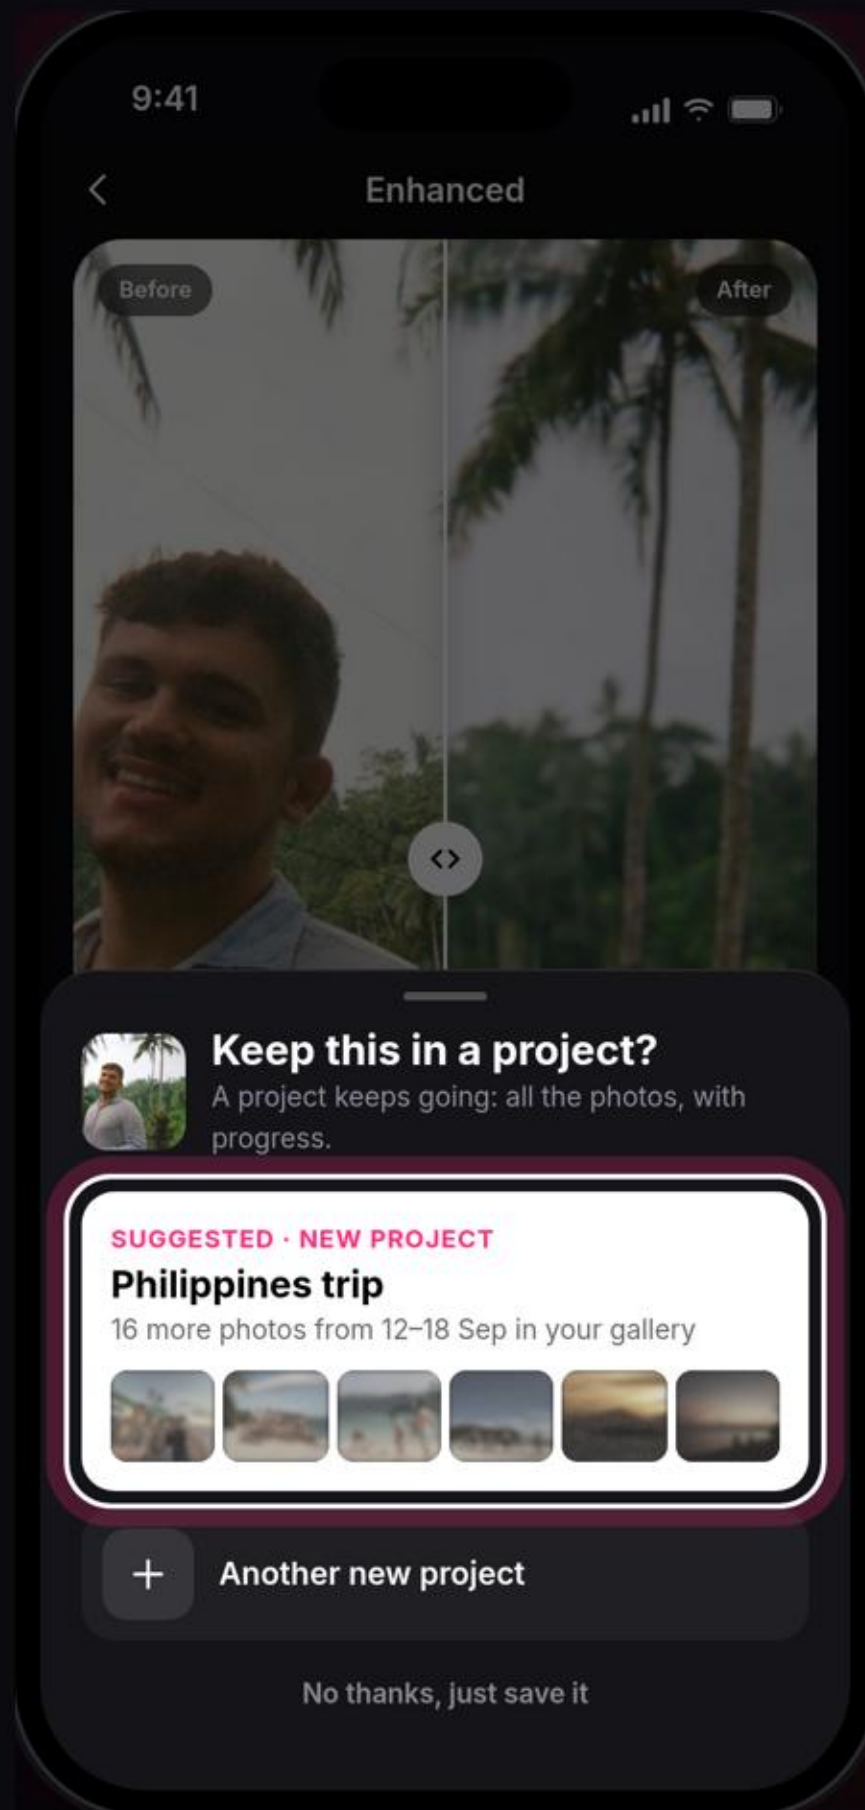

Same first question. Most people come to fix their photos, some to create. Either way, the start is a normal Remini result.

Step 2 of 9 · Start as usual

A quick enhance, as always

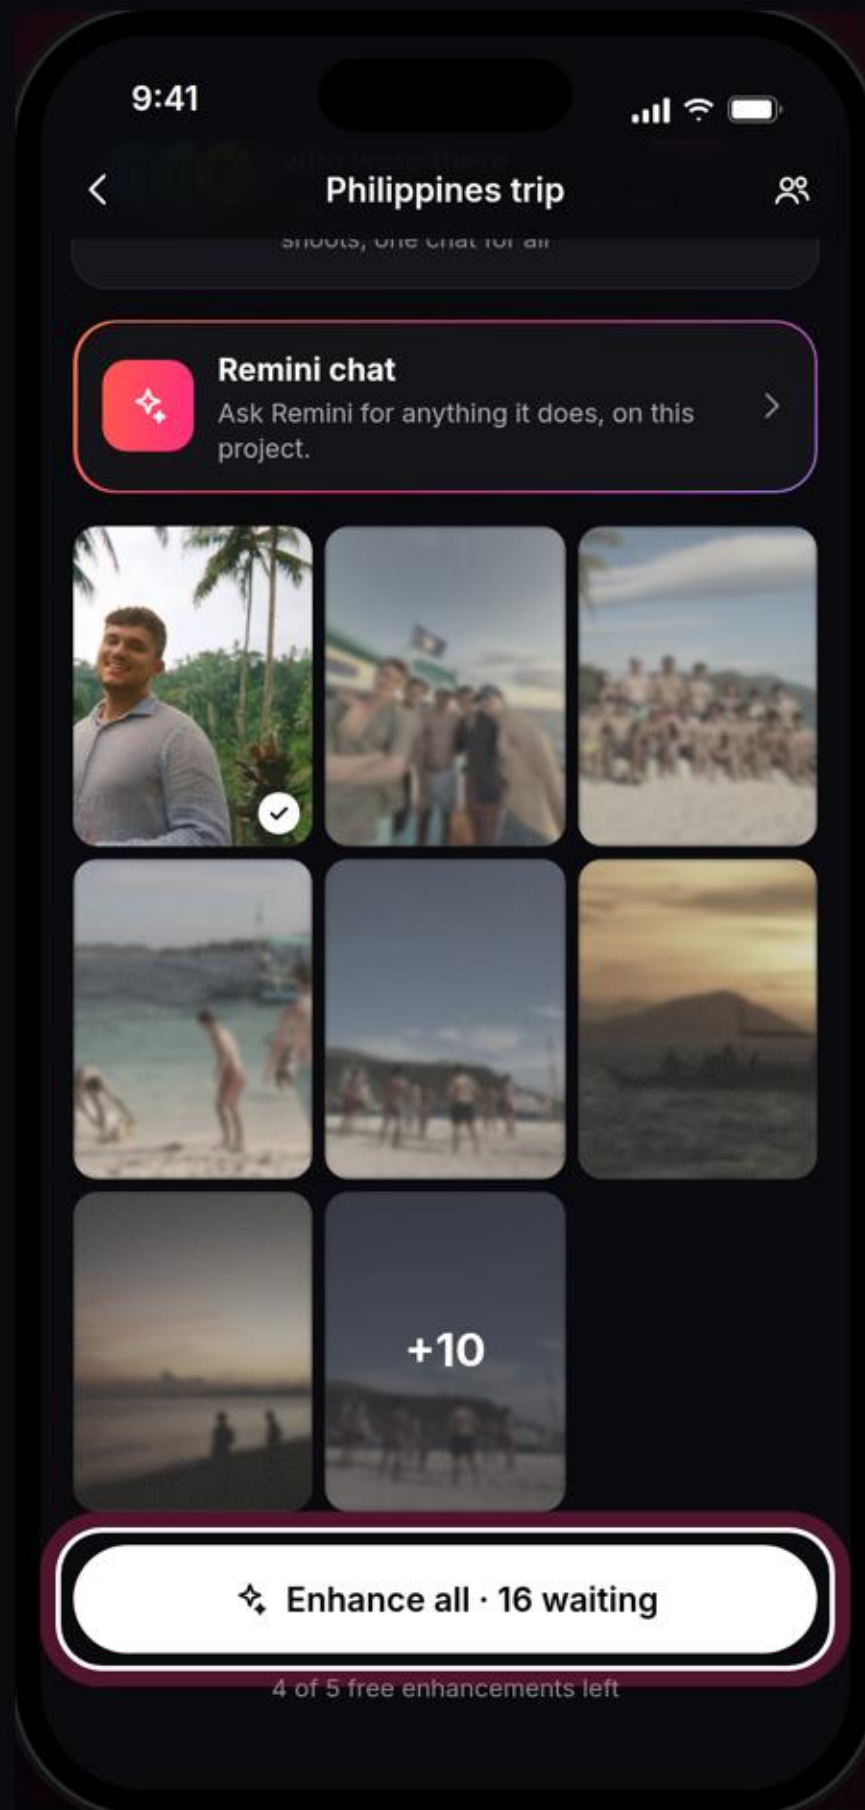

Save and Share work as they do today, so a quick fix stays quick. New: Keep, for a photo that is part of something bigger.

Step 2 of 9 · Start as usual

Keep this in a project?

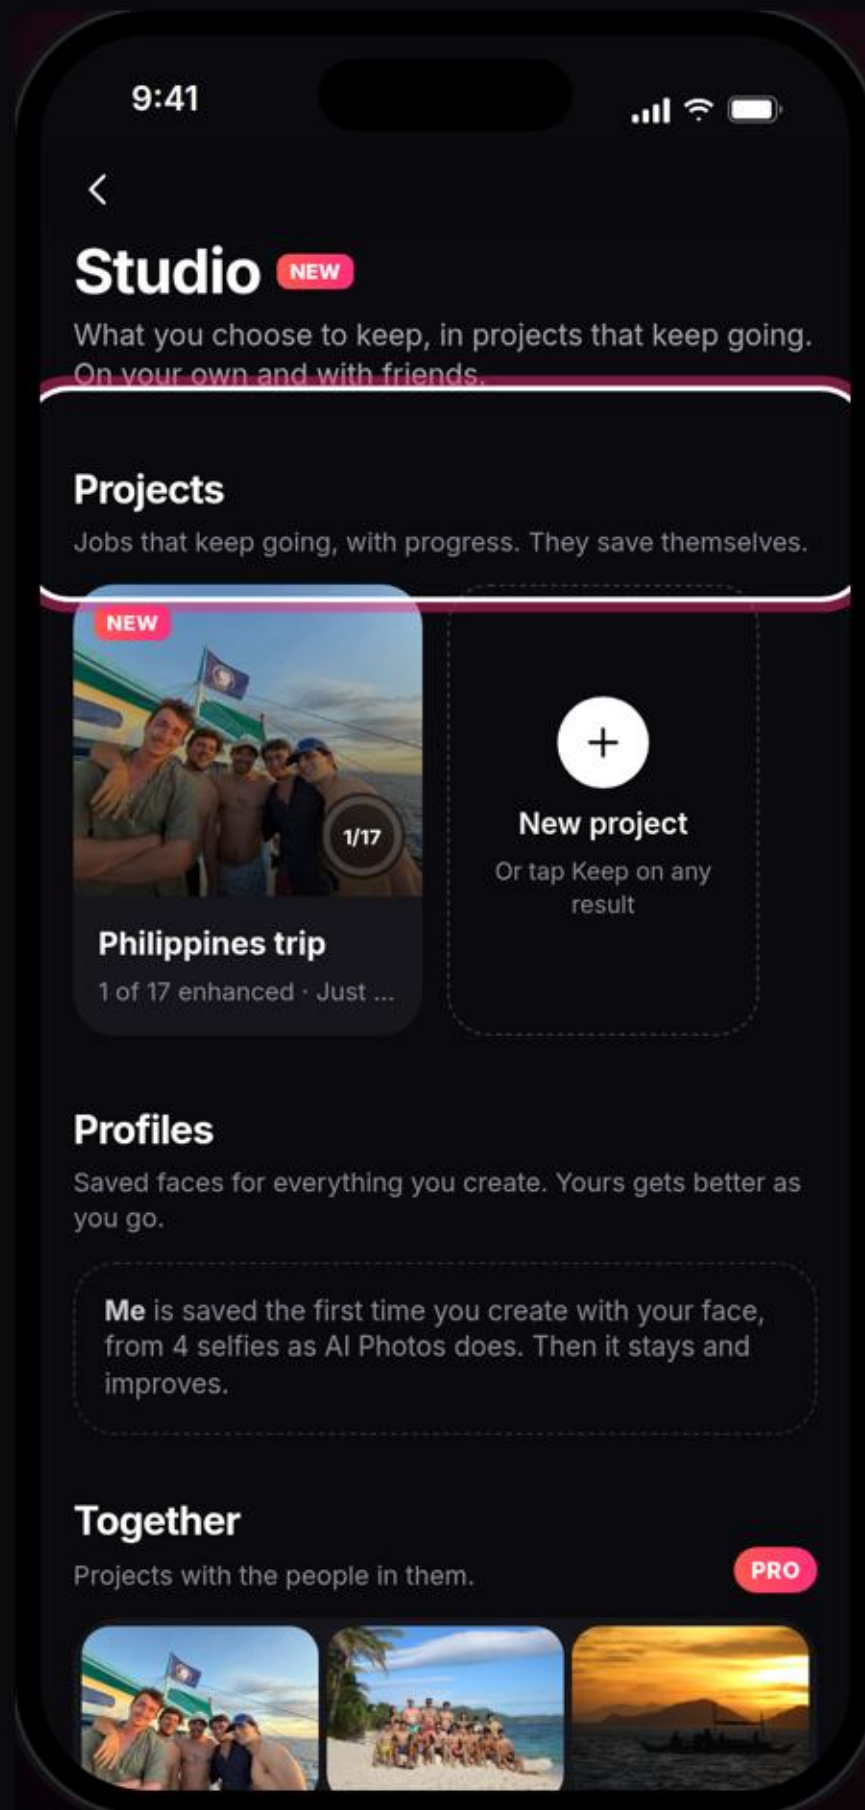

Remini spots 16 more photos from the same days. One tap starts a project. You can also add it to another one, or just save it.

Step 3 of 9 · What Studio is

A project

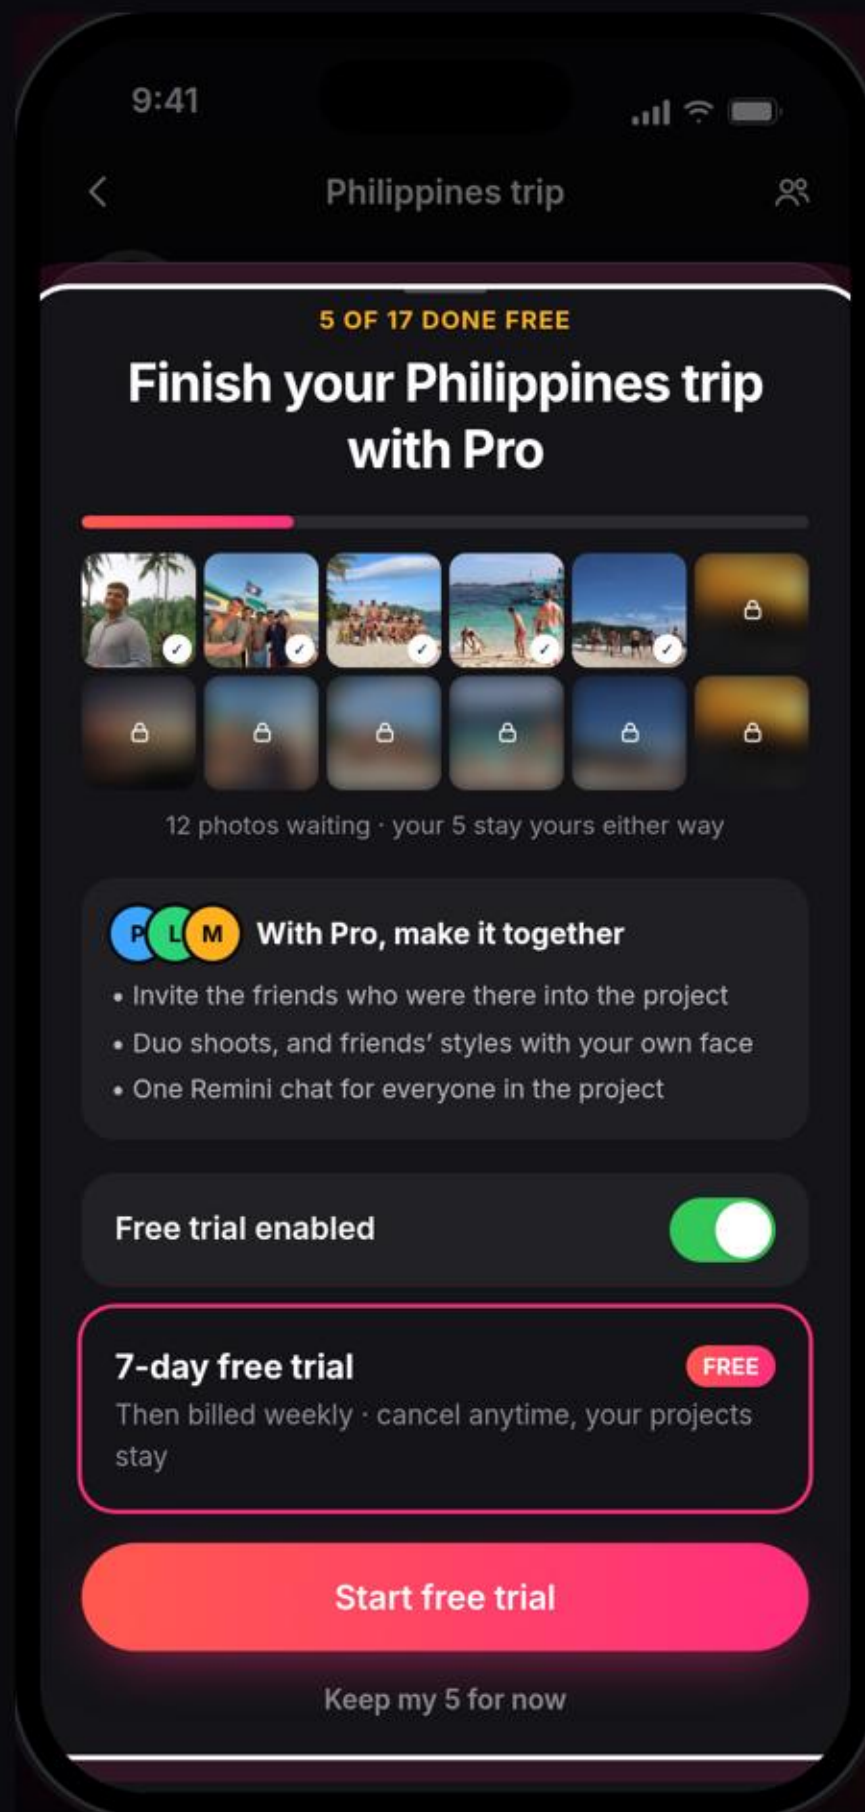

The whole trip in one place, with progress: 1 of 17 done. Enhance all does the rest in one go.

Step 3 of 9 · What Studio is

This is Studio

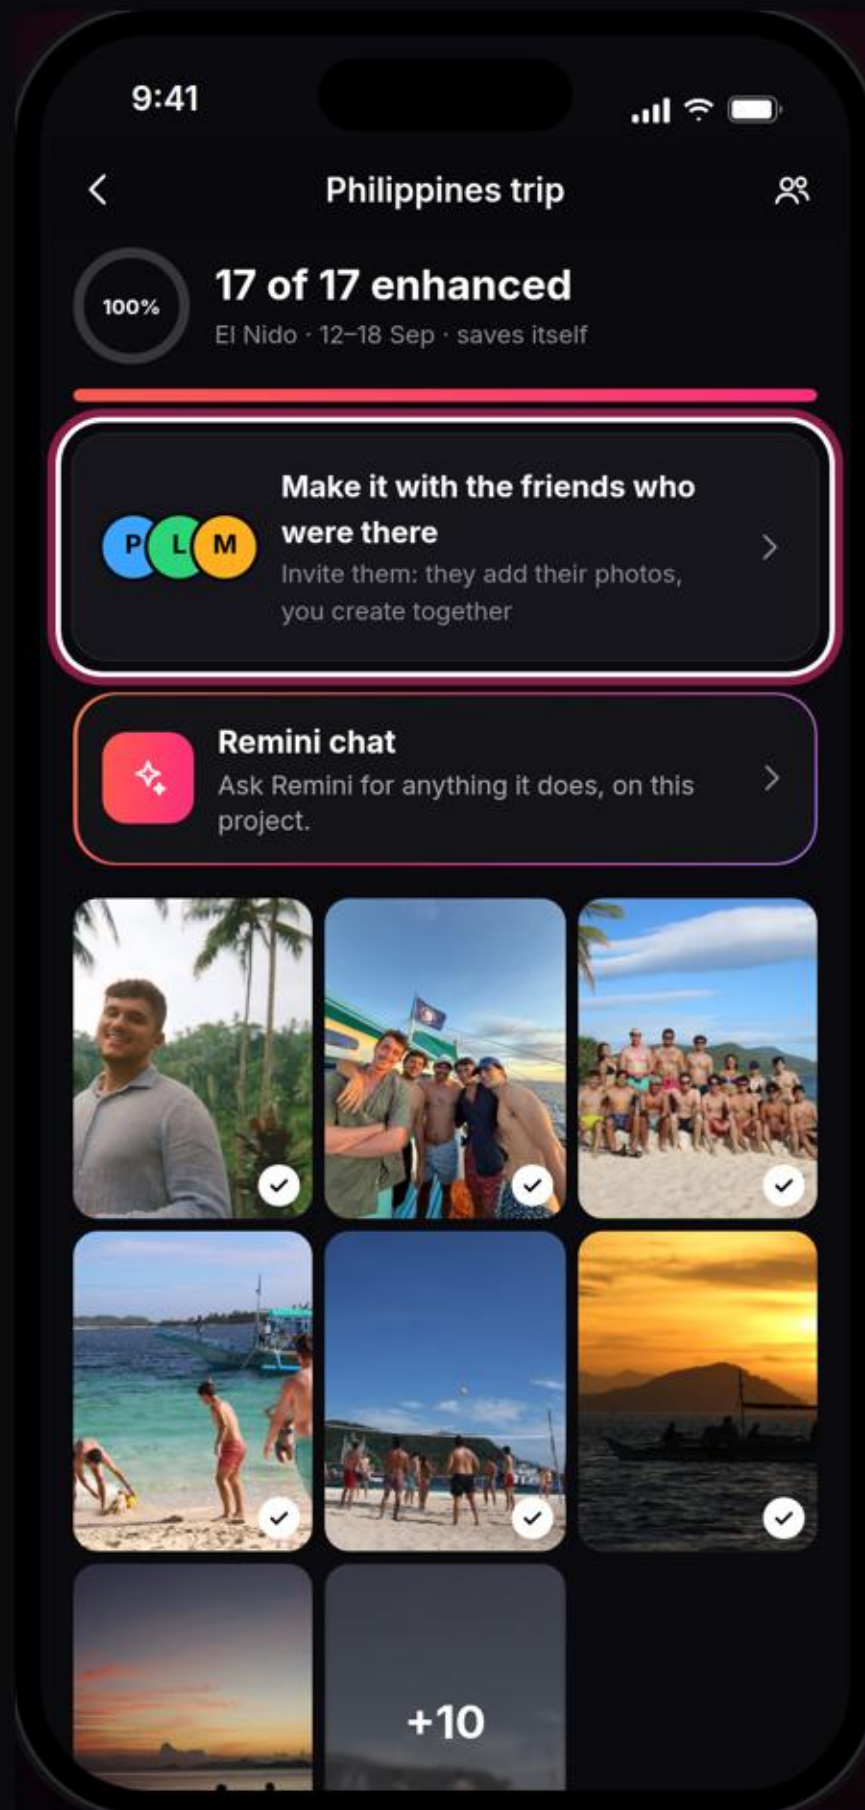

What you choose to keep, in projects that keep going. Below them: your profiles, and Together, for making things with friends.

Step 4 of 9 · The free limit

The free limit, inside the trip

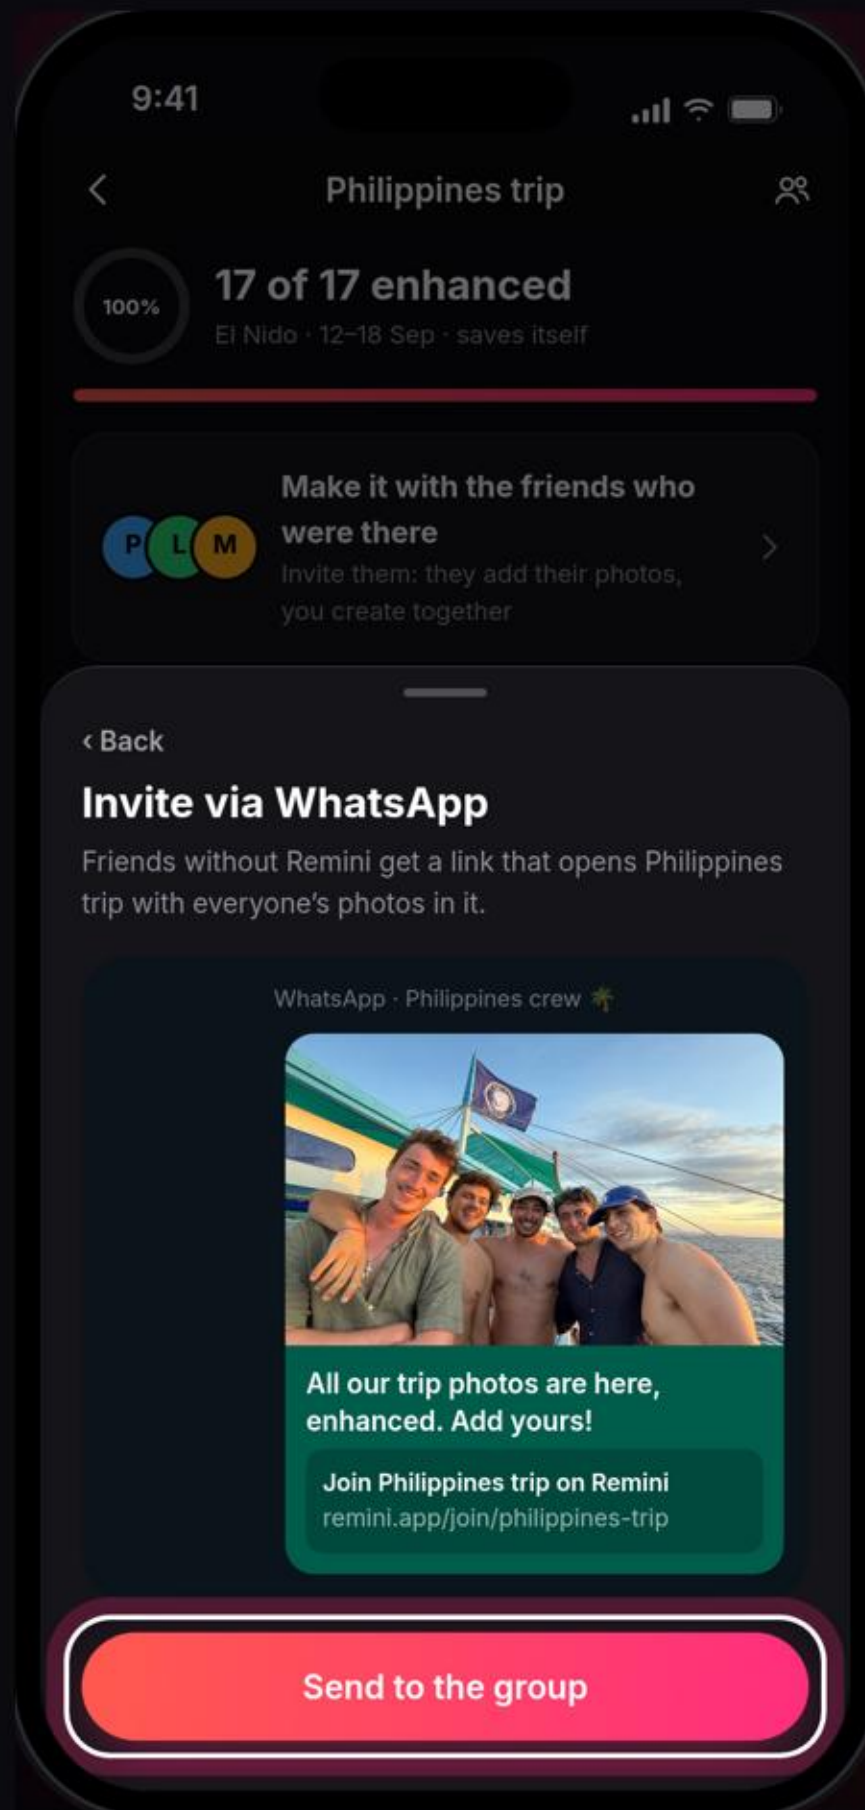

Free limits stay the same. They just land on something you care about: 5 of 17 done. Pro finishes the trip and brings your friends in.

Step 5 of 9 · Trial week: together

Together is on

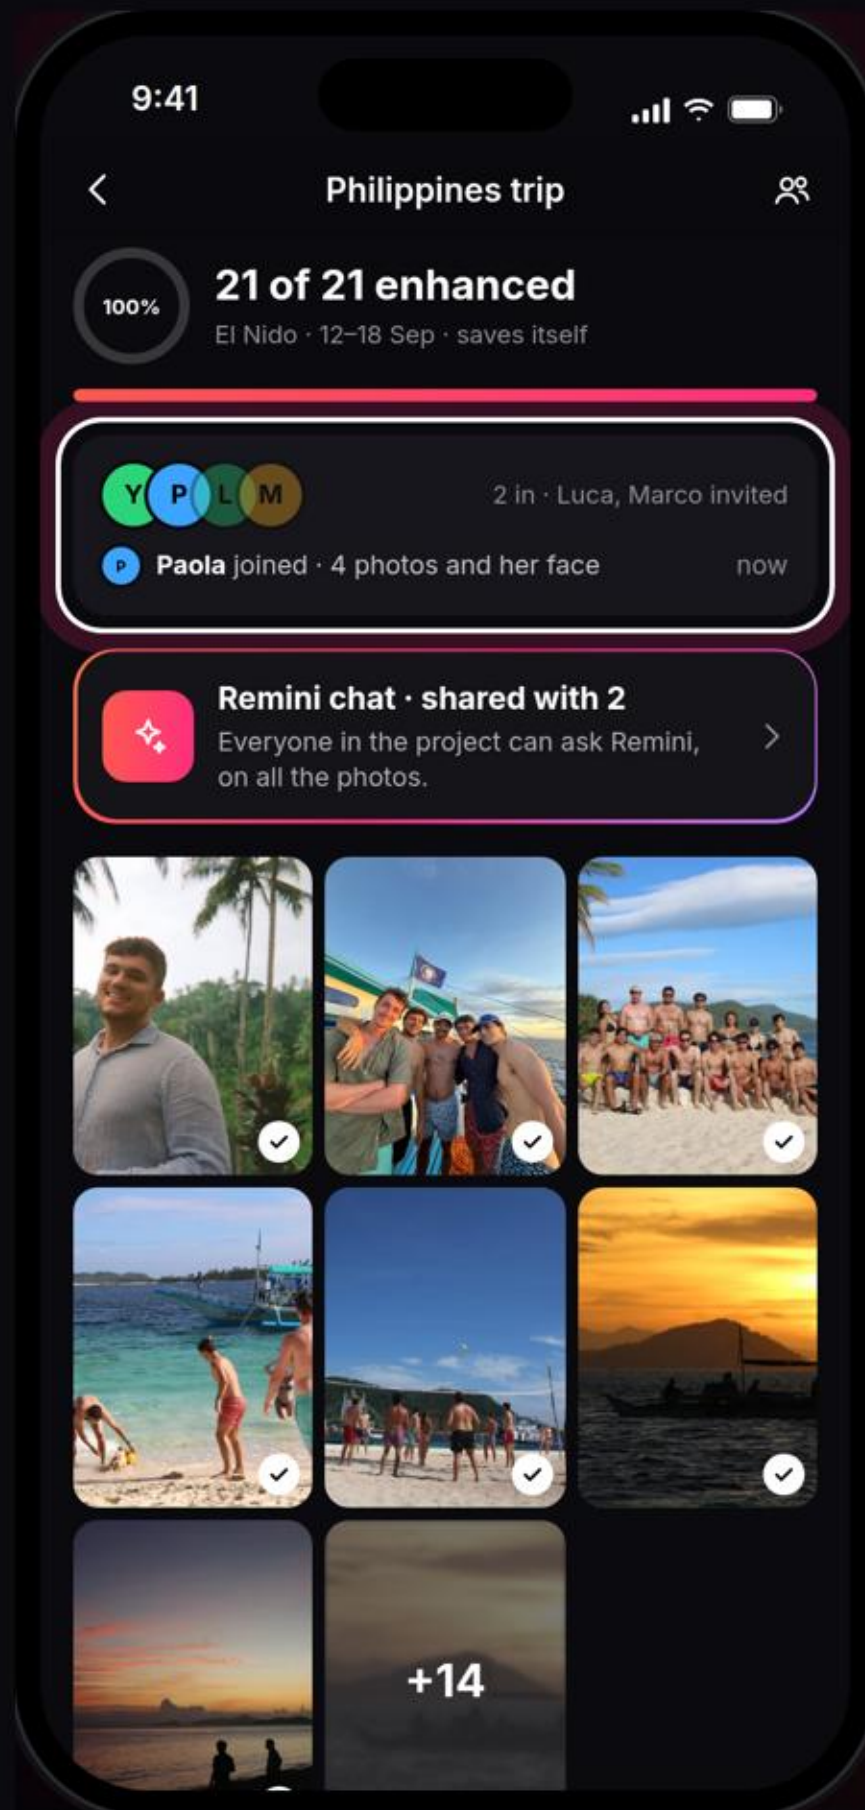

Trial started: the trip is finished and Together unlocks. The friends who were there are one invite away.

Step 5 of 9 · Trial week: together

An invite, through any app

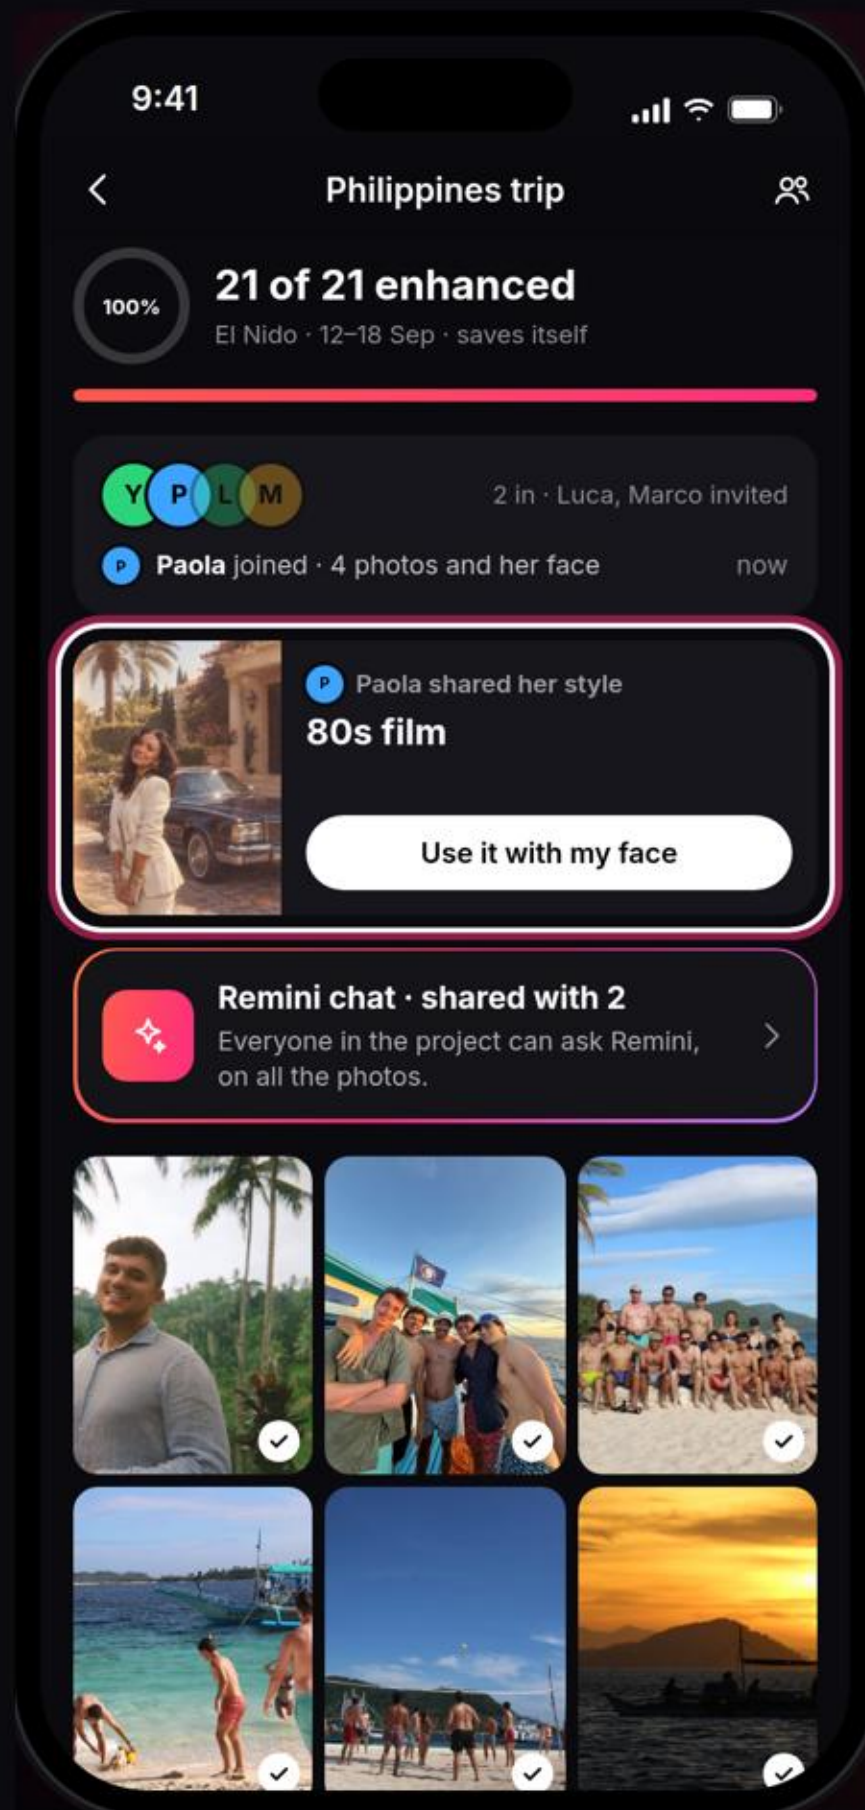

Friends without Remini get a WhatsApp message with a link straight into the trip.

Step 5 of 9 · Trial week: together

Paola joins the trip

Paola lands in the project with everyone's photos already there. She adds her own, and her own face if she wants to.

Step 5 of 9 · Trial week: together

Paola shares her style

Paola made an 80s look of herself and shares it in the trip. You can use it with your own face, or skip it: everyone makes what they like.

Step 5 of 9 · Trial week: together

Her style, your face

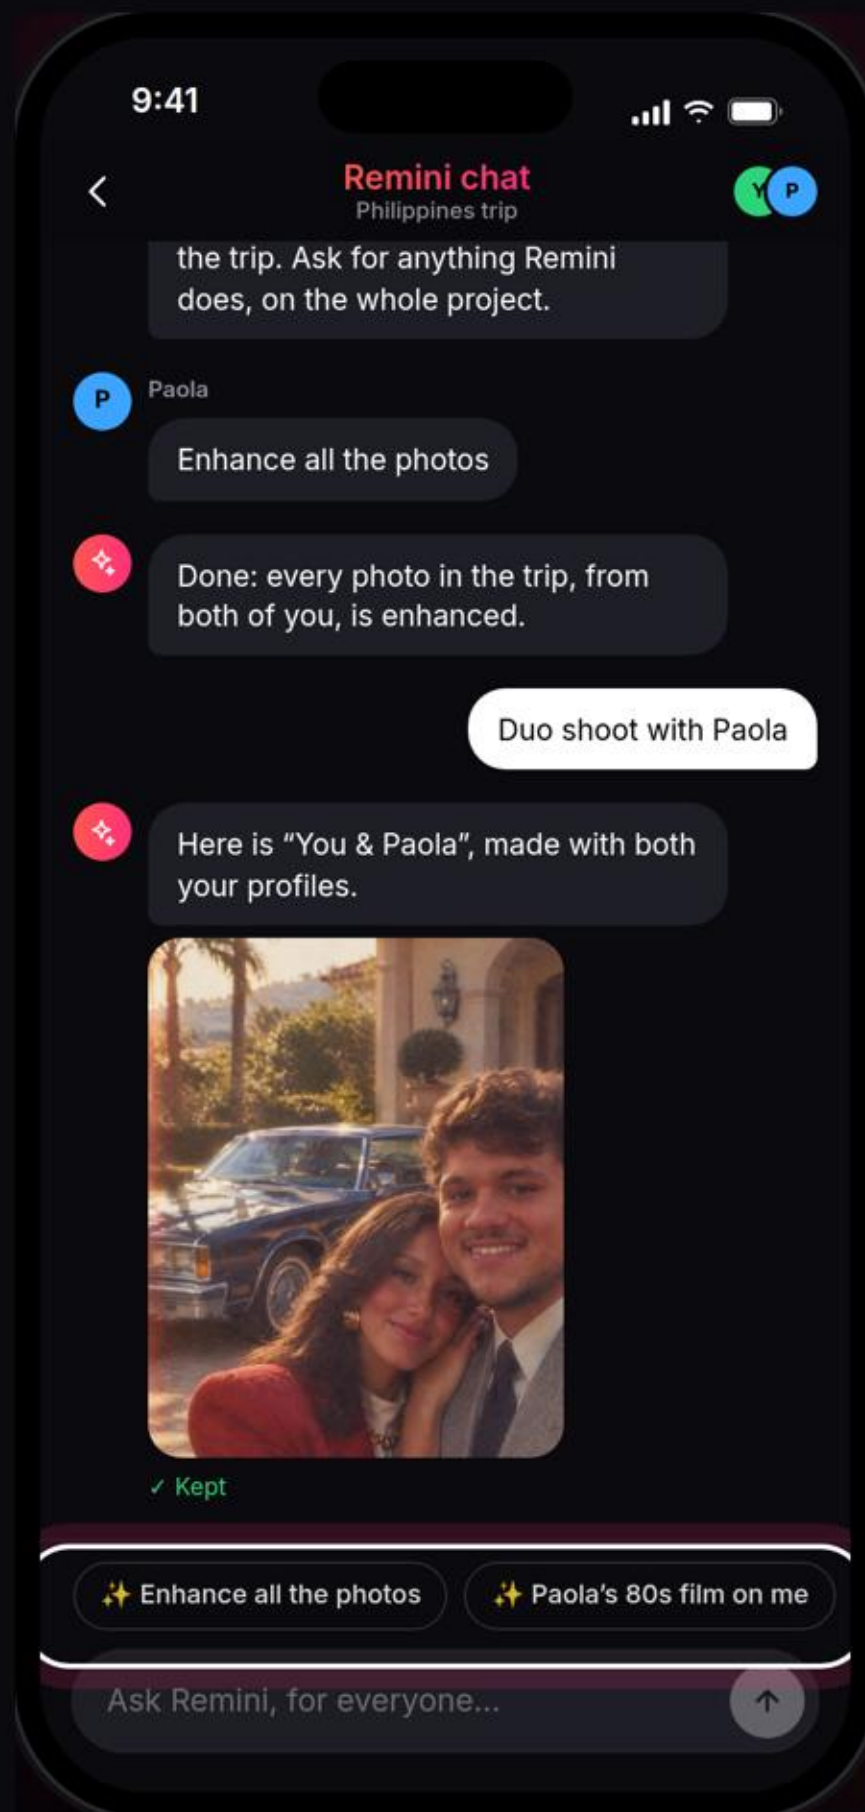

The first time you use your face, Remini saves your profile from 4 selfies, as AI Photos does. Keep the result in the trip, or make a duo shoot.

Step 5 of 9 · Trial week: together

A duo shoot

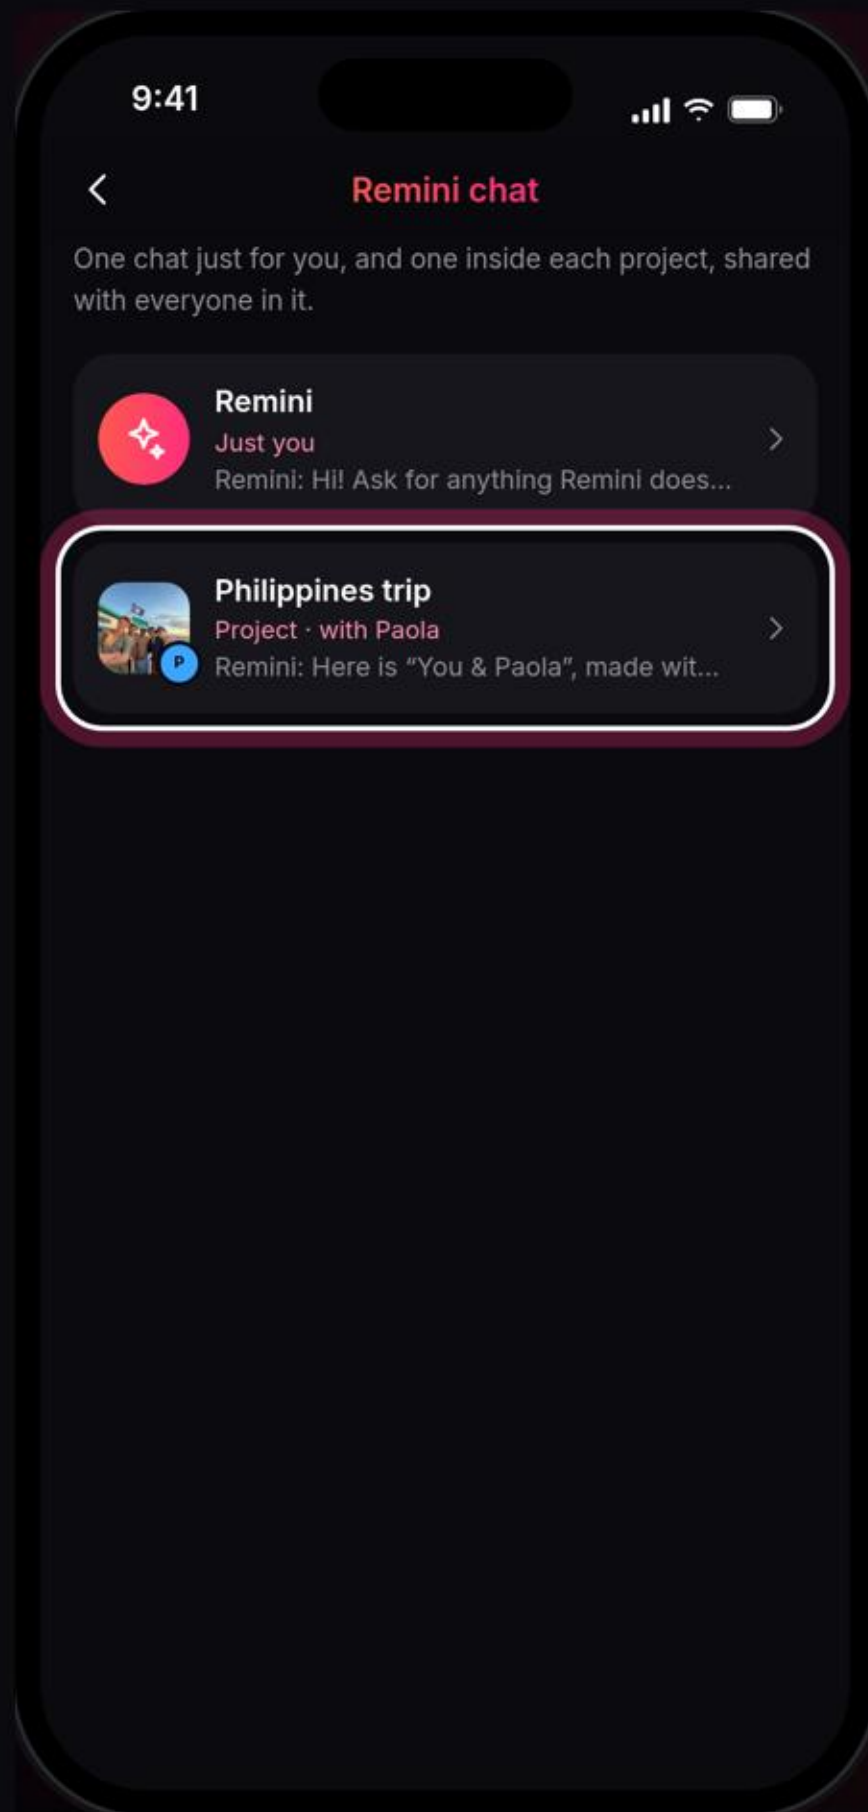

You and Paola, each with your own profile. It stays in the trip, next to everyone's photos.

Step 5 of 9 · Trial week: together

One chat per project, shared

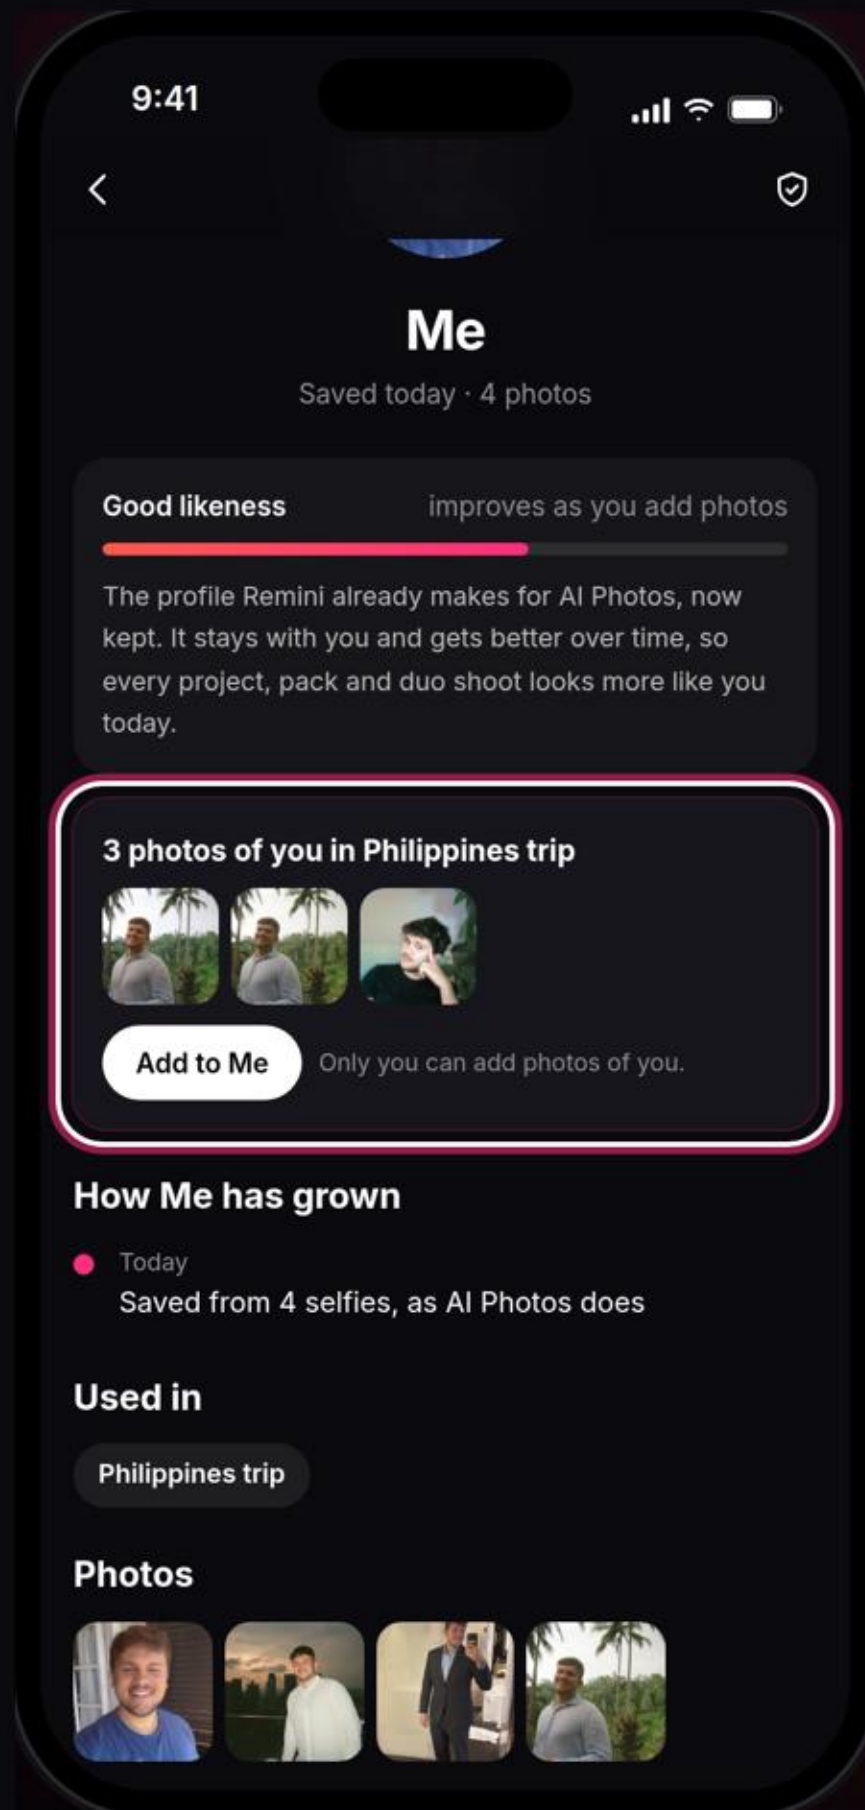

Everyone in the trip can ask Remini: enhance all the photos, Paola's style on me, a duo shoot. Only things Remini already does.

Step 6 of 9 · Chats and Me

Remini chat, where it always w

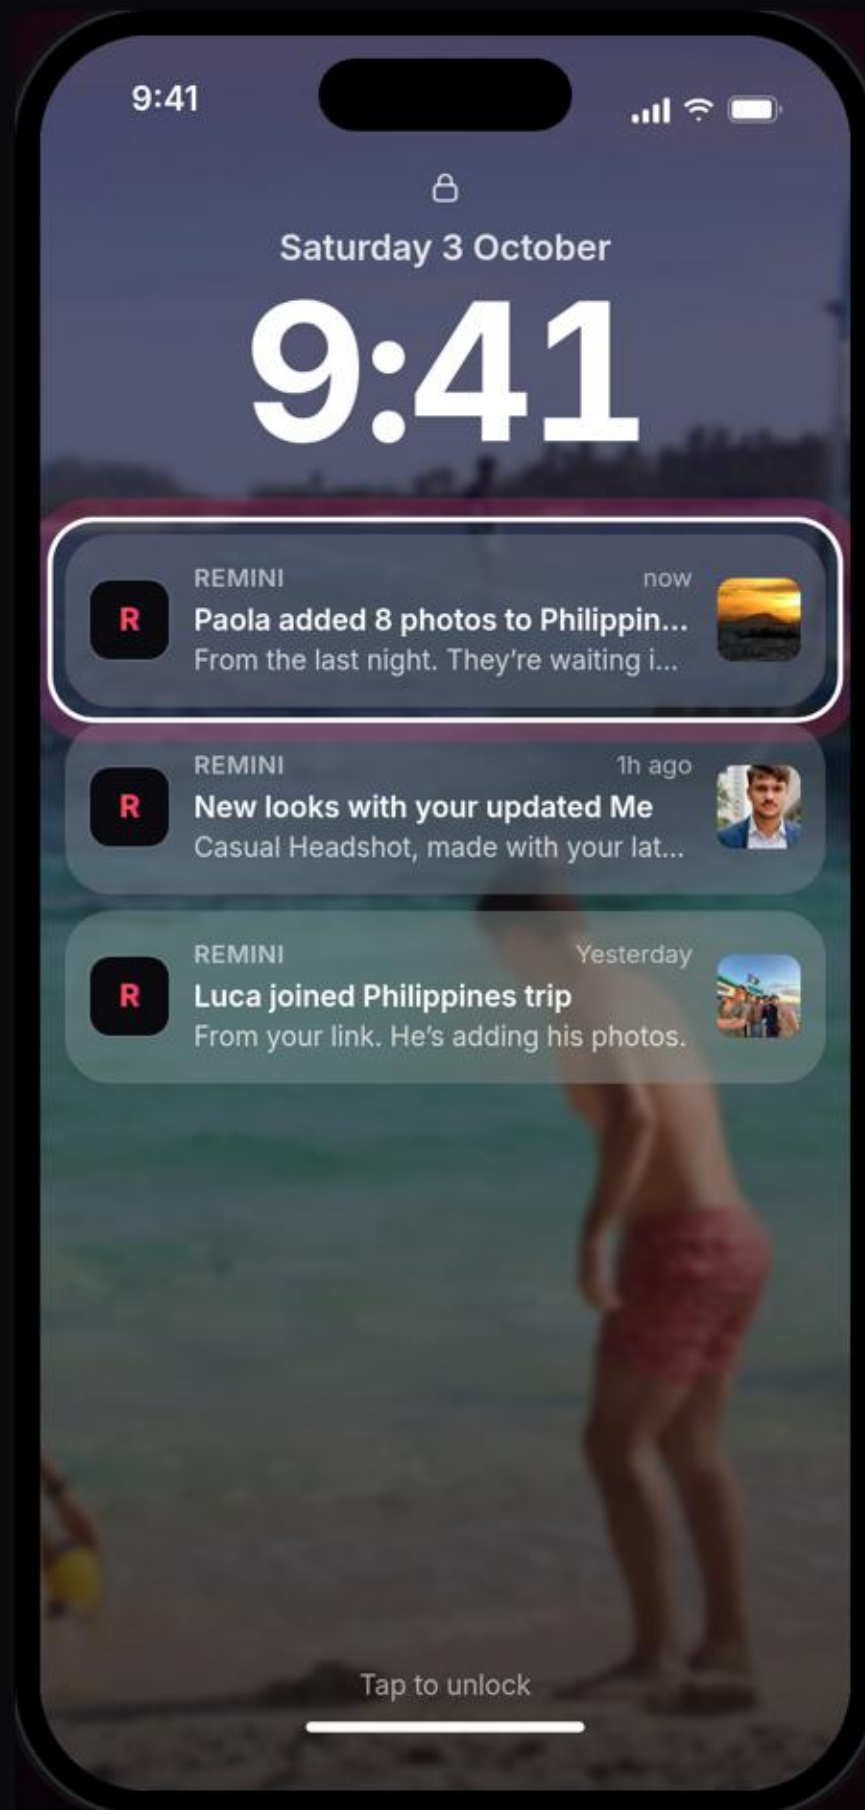

The bubble opens your chats: one just for you, and one inside each project, shared with the people in it.

Step 6 of 9 · Chats and Me

Me, kept and improving

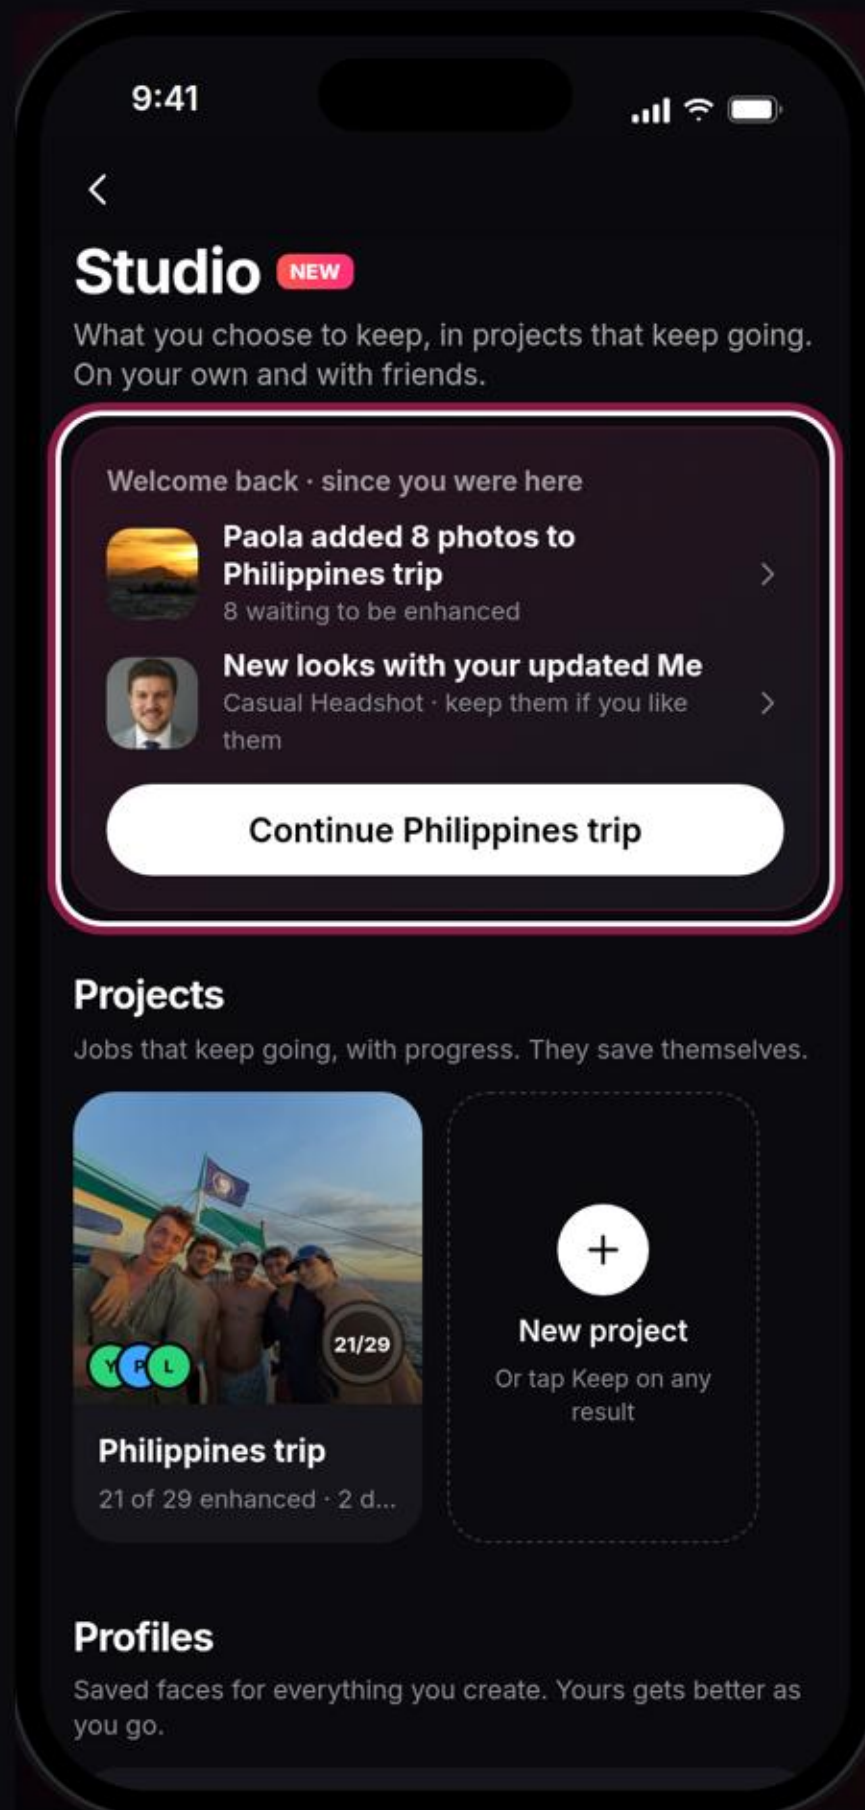

Me is the profile Remini already makes. Now it stays with you: add the photos of you from the trip, and everything you create next looks more like you.

Step 7 of 9 · Coming back

Reasons to come back

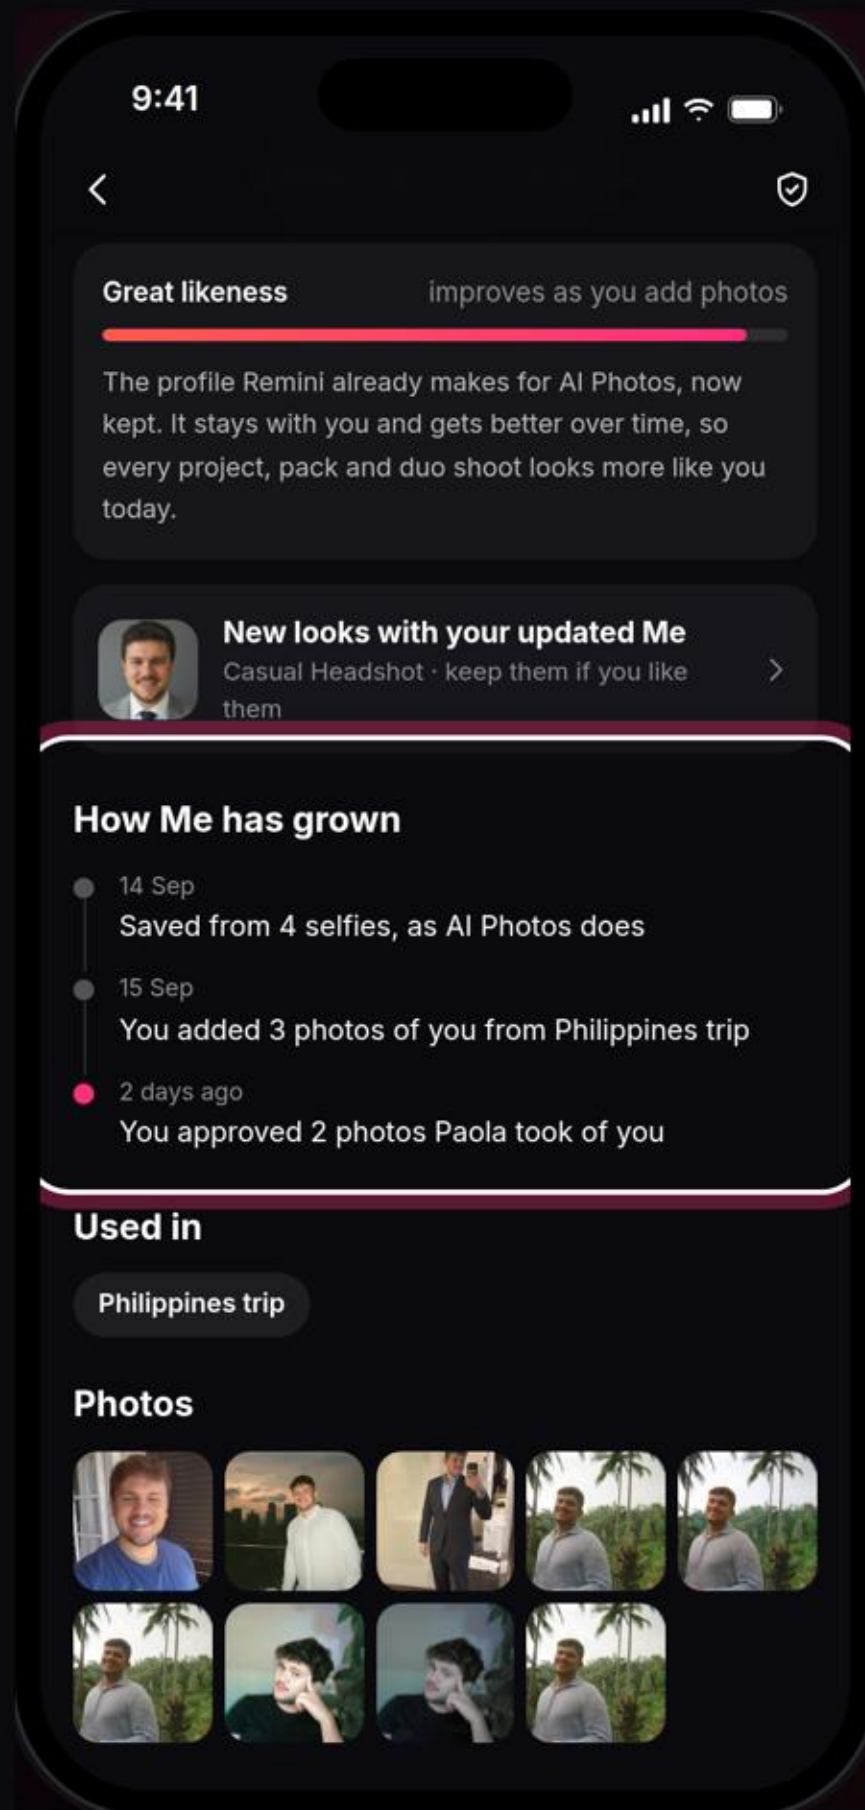

A week later: Paola added photos, Luca joined, and there are new looks made with your updated Me.

Step 7 of 9 · Coming back

Welcome back

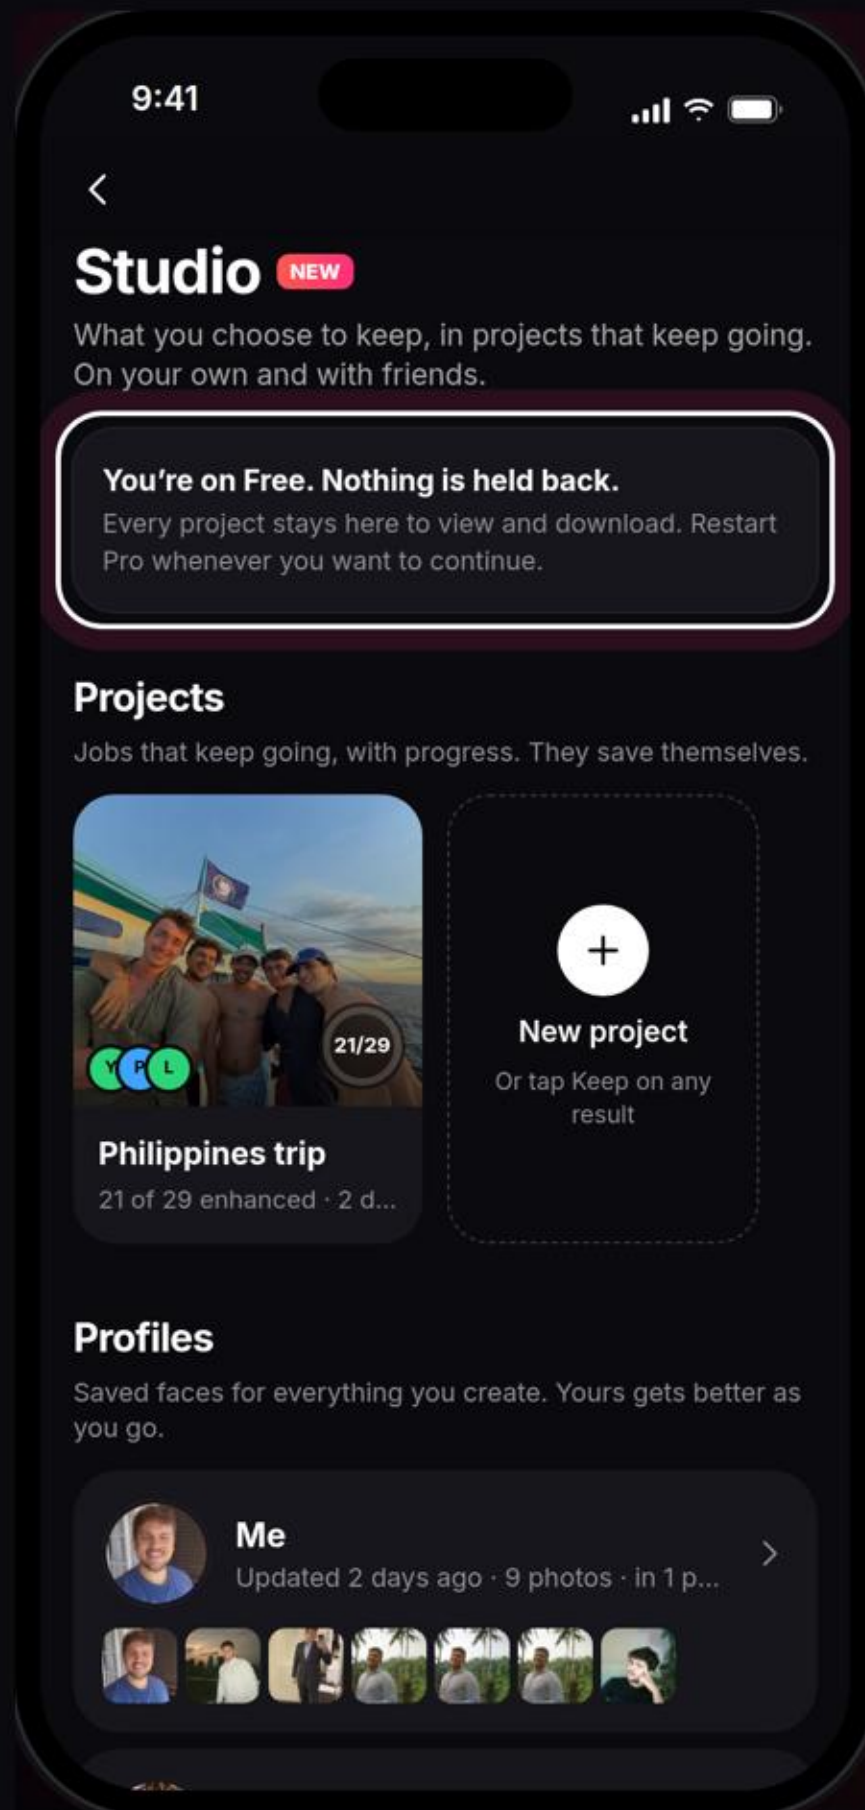

Studio opens on what changed: 8 new photos waiting in the trip, and headshots made with your updated Me, yours to keep or skip.

Step 7 of 9 · Coming back

Me, a month on

From 4 selfies to 9 photos, each one added by you. Better likeness and no new uploads.

Step 8 of 9 · After cancelling

Nothing is held back

If you cancel, every project stays to view and download. It's all there when you want to continue.

Step 9 · Why it pays

Why it pays
